

City Park Reservations

Overview. The park is for the use of all the citizens of Salisbury. The Department of Public Works serves as a clearing house to channel people from areas which they know will be in use at a given time into other areas of the Park. No area of the Park can be set aside for the exclusive use of any group inasmuch as it is public property. Everyone is expected to respect the rights of other individuals, families, etc. in the area.

Care of the Buildings and Equipment. Pavilions, play equipment, tables, charcoal pits, etc. are available for public use. Damage to, removal or destruction of these facilities is unlawful. The Department of Public Works (410-548-3177) is responsible for the maintenance of these facilities. Cost of repair of any damage will be billed to the responsible party.

Trash. Trash containers are provided by the City. Please deposit all trash in these containers before leaving the area. Use of plastic bags is encouraged if containers are already full. Additional containers will be provided if requested in advance by large groups.

Alcoholic Beverages. *Consumption of alcoholic beverages in the park is illegal.*

Sale of food, etc. Except as approved, the sale of food or merchandise of any type is generally prohibited in the Park. A group seeking permission to sell food or merchandise must certify that such sales are related to a charitable fund raising activity or that such sales are an integral element of an approved activity.

Parking. Vehicles are not permitted in unpaved areas of the Park except by permission of the Public Works Director. Parking shall be confined to parking areas and roadsides which have not been otherwise posted.

Point of Contact. If you have questions on the use of the park or would like to make reservations, please call Terry King at (410) 548-3170.
