Subject: Reorganization- Charter and Code Changes
Date: August 2, 2017

During the FY18 Budget Process, the Mayor and I proposed a plan to reorganize the departments within our City government in order to more appropriately align them with the City's goals and objectives.

Substantial changes that constitute this reorganization include: a one-stop-shop for all development projects, the consolidation of our code enforcement officers by relocating them all to one department, a reworking and division of the legacy structure of our Public Works department, a new focus on GIS in all City departments, an independent Procurement department, and the revocation of a previous arrangement that placed Parking under Procurement's purview. This reorganization will be evident in the functionality of our City government and will have a minimal impact on the FY18 Budget.

To further explain this reorganization, all proposed City Code and Charter changes are attached for your review, as well as the ordinance necessary to accept those changes.
