Dear Mayor Ireton,

Please find attached a copy of my resume; I am interested in serving as a southwest quadrant representative on the city recycling committee.

While I do not have a specific background related to recycling, I believe I can serve the city in this regard. I am a long time proponent of recycling—my parents were raised during the Depression, so we saved and reused every bit of string, glass, and paper. Not only do I recycle via curbside pickup, I have a compost pile near my garden, reuse cardboard and plastic containers, and take great pride in the small amount of trash I generate.

My background is in accounting; I teach governmental accounting at SU, so I have some knowledge of how local government finances work. I am curious about how other municipal governments tackle recycling issues, and I believe that we can adapt and refine the best ideas to work for us.

I have lived in the city for almost 5 years now. While the city may have problems, I truly believe that we have the opportunity to make life better here and that these changes will only occur when the citizens become involved. I would like to become more involved.

Sincerely,

RECEIVED
