Re: Request for Residential Handicap Parking Space

The City of Salisbury has received a request to install a residential handicap parking space sign. The Maryland Motor Vehicle Administration has indicated the permit is warranted and then forwarded the request to the State Highway Administration ("SHA"). SHA turned over the request to City Public Works, since the location is within City limits. MVA requested the signs be installed within 30 days of the letter. We received the request on June 22. The City has another handicap permit within the same area. Please see the attached resolution requesting the handicap permit space, as well as the documentation received from SHA. If you have any questions, please let me know.
