January 26, 2012

Mayor Ireton:

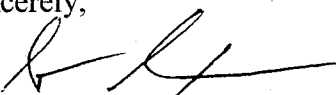

I wish to be considered for appointment to the Historic District Commission. I have a strong interest in the practical preservation of historical structures and the benefit that they confer to our community. Currently my family resides in the Camden Historical District in a Queen Anne Victorian house that we are in the process of restoring and maintaining. The experience of living in a historical structure and the effort required to maintain such a house provide me with the experiential knowledge to understand the needs of preservation as they pertain to structures that are occupied by families and businesses.

In addition to my first hand experience with historic properties I have a Masters of Community Planning from the University of Maryland. My educational background in urban planning provides me with knowledge of the goals, regulations, codes and processes involved in reviewing applications for preserving and modifying structures within the historic districts.

My career as a project manager with The Whiting-Turner Contracting Company has provided me with a skill set that allows me to analyze construction issue and develop quality, economically feasible solutions to the problems faced in preserving and utilizing historical structures. Many of the challenges in preserving a historical structure are not off the shelf solutions and require deliberative and innovative solutions to balance the use and preservation of the structure while at the same time continue to encourage citizens to purchase, restore and maintain these structures which are a legacy of Salisbury's history.

I welcome the opportunity to help preserve Salisbury's valuable historic legacy and to serve our community.

Sincerely,

R. Scott Saxman

## R. Scott Saxman
