**Re:** Comcast Rate Filing

---

The City of Salisbury received from Comcast, Forms 1240 and 1205 which calculate the maximum permitted rate for Limited Basic Service and maximum permitted rates for equipment and installation of service, based on FCC regulations. The Department of Internal Services staff has discussed these documents with Joseph Lance, Senior Director Regulatory/Compliance, and is satisfied that the calculations of the regulated rates are reasonable and consistent with FCC regulations.

As calculated in Form 1240, the Maximum Permitted Rate for Limited Basic Service for this term period is calculated at \$ 17.14. This is an increase of \$ 1.14 from the prior year maximum permitted rate of \$16.00. It should be noted that the current rate for Limited Basic Service is \$15.50. Comcast will notify us 30 days prior to when any rate increases for Limited Basic Service will take place.

As calculated in Form 1205, the attached 2012 Installation and Equipment Rates have been established for the current term period. The noted rate decreases identified in the Operator Selected Rate column will go into effect January 1, 2013. Comcast will notify us 30 days prior to when any rate increases will take place.

If you have any questions, please let me know. Thank you.
