Dear Ms. Odom:

Thank you for assisting me in the reappointment process to the Salisbury Historic District Commission. I have enjoyed serving on the Commission, and I believe that preserving the historic integrity of our community is an important task.

My family and I moved to Salisbury in 2012, and we currently live in our third historic home since we were married 16 years ago. The first two were in Denver, CO and were built in 1896 and 1910. This home here in Salisbury was built in 1928, and seems to be well known to the Commission and to the area at large. I personally enjoy maintaining and working on these old houses, with an eye towards the preservation of historic features. Where would we be as a community if we did not make a sincere attempt to preserve our architectural heritage?

In addition to my love of historic homes, I also enjoy the vintage automobile hobby. I have restored and preserved around thirty vintage vehicles of various types over the years. (Currently I'm restoring a 1917 Willys-Overland and a 1966 Sunbeam Tiger.) I have also served as a judge at national events in the Antique Automobile Association of America on several occasions.

My career has been in the technology and insurance sectors, and my wife (Dr. Maida Finch) teaches at Salisbury University. I have been a small business owner, as well as the past President of the Greater Stapleton Business Development Association back in Colorado. My wife and I are originally from Hampton, Virginia, and we have two children- Oliver (12) and Vivian (10).

Hopefully this gives the Council a brief introduction to who I am, and why I am interested in continuing as a member of the Historic District Commission. I believe the work the Commission has done over the past several years has been important, reasonable, and well accepted by the community, and I look forward to continuing to hone our process and do good civic work.

Thank you again for your consideration. My work experience is attached:

Sincerely,

Bradley Phillips
