Section 5, Affirmation

I hereby affirm that I have read and completed this application and know the same to be true and correct. All provisions of the law & ordinances of the City of Salisbury governing the proposed work will be complied with whether specified or not. No work will be performed on the above property not specifically described heron.

General Information

- All work subject to field inspection and/or testing;
- No work shall start prior to the issuance of a Commercial Fire Alarm & Detection Systems Permit;
- Complete shop drawings including floor and/or reflective ceiling plans showing the locations of all alarm system components shall be supplied with this permit application. Plans shall show the intended use of all rooms;
- Manufacturer's spec sheets for all components shall be submitted with this application, the model numbers shall be clearly identified;
- All Battery calculations that are necessary to verify design details shall be submitted with this permit application;
- All voltage drop calculations shall be submitted with this permit application;
- The sequence of operation of the fire alarm system shall be provided in matrix format with this permit application;
- The permit, once issued, is valid for work commenced within a period not to exceed 180 days after issuance. Otherwise, it is void and of no effect. The permit shall be for periods as the Fire Chief determines, not to exceed one year.
