## Section 5, Affirmation

*I hereby affirm that I have read and completed this application and know the same to be true and correct. All provisions of the law & ordinances of the City of Salisbury governing the proposed work will be complied with whether specified or not. No work will be performed on the above property not specifically described heron.*

### General Information

- All work subject to field inspection and/or testing;
- No work shall start prior to the issuance of a water based fire suppression system permit;
- Plans, shop drawings, manufacturer's specs, and/or cut sheets are required to be submitted with this permit application;
- Hydraulic calculation summary sheet and hydraulic calculations are required to be submitted with this application;
- Water supply information (within last 12 months) is to be submitted with this application;
- The permit, once issued, is valid for work commenced within a period not to exceed 180 days after issuance. Otherwise, it is void and of no effect. The permit shall be for periods as the Fire Chief determines, not to exceed one year.
