

City of Salisbury

ROOFING GUIDELINES

New roof coverings shall not be installed without first removing existing roof coverings where any of the following occur:

- 1. Where the existing roof covering is wood shake, slate, clay or asbestos tile.**
- 2. Where the existing roof has two or more applications of any type of roof covering.**
- 3. Where the existing roof or roof covering is water soaked or has deteriorated to the point that the existing roof or roof covering is not adequate as a base for additional roofing.**

These are both State & City Laws

**Please call 410-548-3130
if you have any questions.**
