

Green Team Meeting

July 12th, 2017

Room 203 GOB 5:30PM

Attendees: Charles, Jim, Matt, Ryan D, Ryan W, Tony

Introductions

Bee City USA Updates

- The resolution will be sent over to Bee City USA reviewer prior to sending it to Mayor Day. This will allow the group to review it and make changes prior to it being sent to the Mayor's workshop for their input.
- Per Charles: Could there be a sign at the Salisbury Zoo, letting people "Salisbury is a Bee City"? This could be at the entrance.

Group Input:

Charles:

Inquired about Local Areas to Put-in the Water for Recreational water-sports and whether there are any maps available for such spots?

Areas we thought of where people can put in"

- Shoemaker
- Riverside Boat Ramp
- Johnson Lake
- City Park
- Leonard's Mill

The group ultimately decided that this is likely not something within our scope activity and is a matter for Parks and Rec.

Tony:

Keeping track of the solar applications and installs throughout the city to understand how our citizens use power and how much power they are using from Sustainable sources. The City Permitting Office keeps track of Solar Applications in the City. We could potentially pull this information.

Jim:

Camden Ave garden has a pollinator garden off to the side of the Community garden

Jim Mentioned reviewing the (3) year plan in the August meeting

Matt / Ryan D:

Can we set up a Google Invite so everyone has information on the days we have events?
