Mayor's Budget Message

Friends, Citizens, members of the City Council,

I believe that what makes us strong is that no matter our successes or challenges, our community remains united in purpose and united through kindness. Salisbury is likely one of a very few cities that has elevated one of her citizens to the vaunted position of 'Secretary of Kindness'. Our very own, Secretary Grace Murdock, would likely point out that it is not the numbers in our budget, but rather the priorities that receive our attention, that reflect what makes our community strong.

The City of Salisbury Fiscal Year 2020 budget acknowledges three central economic truths. First, our growth is unmistakable and undeniable. Demographic shifts mean that we are a rapidly growing, increasingly well-educated, increasingly better off and increasingly younger city. Second, we are clearly doing the right things to undergird that growth and to achieve the objectives we set forth over 6 years ago. Finally, our growth does not directly translate into unlimited resources and thus we must cautiously and conservatively grow the programs we know our citizens deserve.

Mayor's Budget Message

In 2018, Salisbury remained Maryland's fastest growing place. For those who chose Salisbury as their home, they found a younger, more diverse, better educated and better paid set of neighbors. Median wages rose 11% since 2016 in Salisbury and unemployment continued to decline. The fastest growing demographics in our City are 20-24 year olds and parents age 24-35 with children under 18. We are now a minority-majority City and our median age has dropped to 27.2 – less than half of the median age of our neighbors at beach communities. This bodes incredibly well for our future as a young median age is the best predictor of future economic growth.

In 2018, our City witnessed \$76 million in real estate development (more development than any point since 2000). The amount of construction per month in the City during the 2016-2018 period was \$4.3 million/month, 56% more than during the period 2007-2015. We witnessed a 30.9% increase in commercial real estate assessments, an 11% overall rise in real estate assessments and a 7.9% residential sale price increase in the City since 2016. That increase has come amidst the very first single family homes built in the City since 2007 – more than 100 have been permitted since the City adopted our Residential Permit Fee Moratorium. Right now we have more than 2,000 housing units permitted for construction in the City. Our One Stop Shop for development permitting has helped each of these indicators improve in 2018.

Mayor's Budget Message

The growth we are experiencing, I believe, is a direct result of our quality of life improvements. In 2018, we hosted the 78th (our first) National Folk Festival – the oldest, longest-running free traditional arts and music celebration in the country. This event combined with our Salisbury Marathon have changed the landscape for major events in our region. The 2019 budget continues these critical events and our rhythm of Downtown arts and entertainment activities. This budget continues to support the spaces and places where our community gathers and relaxes. The City Park Master Plan, Urban Greenway and Bicycle Master Plan implementation continue to improve accessibility and recreational opportunities for neighbors in every part of town.

Crime continues to fall as we became #22 of 506 places in Maryland (the safest 5% of communities in the state) in 2018. Total Part 1 Crimes fell to their lowest number since we began keeping records in 1981. I believe that part of this is our focus on predictive, proactive policing – and part of it is due to our focus on creating opportunity for youth. This budget is our first to fully fund the operations at the now-open Truitt Street Community Center and the soon-to-open Newton Street Community Center. Pop-Up Bus Stops, the Youth Civics Council, Youth Works Summer Jobs program, Explorers and Junior Fire Academy, and Salisbury Youth Athletics programs will each continue, contributing positive, uplifting, supportive programs for kids in our City

Mayor's Budget Message

One of the clearest displays of our values – and our kindness – is that we continue to be the only small city in America permanently housing the chronically homeless. The 2020 budget continues our Housing First program, our Housing & Homelessness program staff, and expands our work in this area. This year, we will unveil a program to assist in the transition from panhandling and vagrancy back to work, modeled after Albuquerque's A Better Way campaign.

Our agenda is ambitious and our transformation rapid, and all are part of our ascent as one of the Great Small Cities of America. Yet, I am perhaps most excited that we do all of this while maintaining our fiscal health. We are one of the few small US cities with a 100% clean audit without a single comment, a AA+ rating from Standard & Poor's, and the Government Finance Officers Association Budget Award.

Big things happening at Chesapeake Shipbuilding

Mayor's Budget Message

However, I want to illuminate the reality that our rapid growth is not accompanied by an unlimited stream of revenue. For that reason, this budget tightens our assumptions about savings over the course of the year. We might very well end up with a larger-than-usual surplus at the end of the year because of this shift, but our projections lead me to believe that we must begin to tighten our spending and revenue projections in the coming years. I also believe that we must have tough conversations about inequities with respect to the provision of and compensation for services beyond our borders, and the structural disadvantage in which we are placed by existing in the only Maryland county not to have an equitable tax structure.

Our economic and population growth is impressive; our projects are transformative; and our financial position is enviable; but make no mistake: there is no gold rush on Salisbury. Every facet of our transformation is a long-term play. We seek not temporary victories, but instead a lasting ascent for our City. And with these changes, we are not seeing a return to the good old days, rather our very best days. I thank every one of you for your role in getting us there.

Yours in Service,

Jacob R. Day, Mayor

The National Folk Festival in Salisbury

The 9 Pillars

1. Economic Development

As the Capital of the Eastern Shore, the City of Salisbury is proud to facilitate a diverse economy. With an ever-expanding range of economic opportunities that exist within our bustling economy. We are proud to have the 7th fastest growing job market in the US as we cultivate entrepreneurs and encourage the proliferation of small, locally-owned businesses. In 2016 alone, Salisbury's metro economy had grown to \$16.9 billion. With only \$350 million in retail buying power in the City, Salisbury retailers did \$1.6 billion exchanged through retail spending. Manufacturing employment reached 12% of the workforce compared to 3% across the State of Maryland. The most important part of our economic growth strategy has been to turn our once-quiet Downtown into a vibrant center of arts and culture by investing in marketing efforts, arts organizations, recurring events, establishing a Downtown Visitor Center, an amphitheater, and recruiting the National Folk Festival and its \$90 million economic impact to the center of the city.

2. Brain Drain

To continue as a leader at the vanguard of innovative concepts and technologies we are always looking for ways to beautify and better our City. We recently rebranded Salisbury in order to become more marketable as we encourage citizens and business to become involved in our community and take pride in being Salisburians. As a result, we are now known as Maryland's Costal College Town. We have created an Entrepreneur Pipeline with Salisbury University, partnering with the School of Business to hold entrepreneur courses and business competitions, including awarding a Mayor's Prize to one winning business plan annually. Through our coordination with Salisbury University, we have successfully attracted the University to – for the first time – open a Downtown campus. In this landmark building, they are designing a major Entrepreneur Center which will continue to connect bright minds to the City's heart and soul. We have also funded our City's groundbreaking Buy a Home Build a Business program that helps aspiring small business owners to both open a storefront and buy a house in Salisbury. In support of the young people who grow up in Salisbury, we have established a Youth Civics Council and Youth Development Advisory Committee this year. The Committee has, among other things, recommended the City establish 2 youth community centers in our distressed neighborhoods in Salisbury and we have acquired sites and begun the design process for these transformative centers.

The 9 Pillars

3. Transparency

Throughout Mayor Day's administration there is an ongoing endeavor to hold our government accountable to you, the citizens of Salisbury, as we foster an environment of responsive government and promote open lines of communication between City Government and citizenry. We welcome the public to attend our City Council meetings and make access to government officials easier than ever by streaming Council meetings and work sessions live on PAC 14. Additionally, we remain steadfast in our commitment to transparency by openly sharing up-to-the-minute mapped data. Over the course of FY17 and FY18 we have – and will continue – developing our new City web site (including a new Downtown web site) and a City-operated 311 system. Tools are being adopted to make bill pay, job application, RFP/bid response and other citizen submissions much more user-friendly.

4. Neighborhoods & Housing

The City of Salisbury has a dedicated team of support staff and code enforcement officers in our Housing and Community Development Department (HCDD). HCDD serves our City in a myriad of ways from enforcing property and maintenance codes to making sure rental properties within City limits are registered and landlords are properly licensed. In addition to helping maintain order and consistency throughout the streets of Salisbury. HCDD is the home of Salisbury's new Housing First program, designed to help rehabilitate and house the chronically homeless in our City. Currently, HCDD is also working on new ways to encourage homeownership while supporting and strengthening our neighborhoods and encouraging a sense of pride throughout our City.

5. Fiscal Discipline

We work tirelessly to ensure that every dollar we expend is accounted for and each expense justified. Each of our City departments is challenged to strive for efficiency as we respect our commitment to you, the tax payer, to responsibly manage City revenue. As a testament to our fiscal responsibility and the dedication of every department, Salisbury has been able to reap the benefits of having a surplus in our budget. In 2016, we had \$280,000 returned to surplus. Furthermore, as a direct result of our fiscal responsibility and discipline, our City currently benefits from our AA Bond rating.

The 9 Pillars

6. Public Safety

Maintaining the safety of our community is one of the most important duties our City government is tasked with. As an example of our ongoing commitment to promoting the safety of Salisbury's homes, streets, and business we are proud to host fully operational Police and Fire Departments. Salisbury's finest, the men and women of our Police and Fire Departments, work around the clock to ensure our City continues to be a safe, family friendly community. The commitment of our first responders has not gone unnoticed or unrewarded, as Salisbury now enjoys the lowest real number of Part 1 crimes in 31 years, and the lowest per capita crime rate in that same time. As a testament to our Emergency Services commitment, it is worth noting that our Salisbury Police Department voluntarily seeks and maintains national accreditation. Furthermore, as a result of their proven track record of outstanding response times and ability to extinguish fires, our Salisbury Fire Department recently attained an ISO rating of 2, one of only 5 agencies in the State of Maryland in the top rating tier.

7. Environment

In Salisbury, we take pride in our beautiful environment and pristine waterways. We stand resolved in our commitment to the preservation of one of our most valued natural resources, the Wicomico River. As a demonstration of our determination to preserve our stunning environment for the utilization and enjoyment of future generations, we are proud to participate in efforts in partnership with the Wicomico Creek Watchers to improve the quality of our river and ponds, fulling funding their water testing program for the first time.

The 9 Pillars

8. Transportation & Infrastructure

We are devoted to making commuting to and through Salisbury easier and safer than ever by keeping our roads, bridges, and sidewalks accessible to all. A City can only be as strong as the foundation upon which it is built; with this in mind we take pride in our transportation systems and are always looking for ways to improve Salisbury's infrastructure. Currently, we are improving the infrastructure of our Main Street and beautifying our streetscape. In addition to our ongoing projects, we have plans to continue to connect sections of the Salisbury Urban Greenway walking trail as well as to create an innovative biking and walking rail trail along the railroads that connect North and South Salisbury. We are also honored to have been designated as a Bike Friendly City with a Silver Status. In the past 12 months we have adopted a Bike Master Plan, Route 13 Corridor Plan, Urban Greenway Plan, Downtown Master Plan and Zoo Master Plan for upgrading and expanding our infrastructure.

9. Constituent Service & Management

Ultimately, the purpose of our City Government is to serve you, the citizens of Salisbury. Our City staff work every day to ensure that Salisbury continues to thrive. If you should have any questions, concerns, or comments regarding the daily operations of the City of Salisbury, please do not hesitate to contact the Mayor's Office or one of our City departments directly. It is our hope that Salisbury will continue to grow as a center of employment and opportunity for all. Our City has a dedicated staff of civil servants. It is our desire for employees of the City of Salisbury to be both engaged and challenged while they are members of our dedicated and innovative workforce.

Community Profile

We are Salisbury, Maryland, and our town was born from the headwaters of the Wicomico River. This special place, nestled squarely between the beaches and the bay, has been attracting people to its stunning location for almost 300 years.

Now one of the largest cities on the peninsula, Salisbury serves as the Capital of the Eastern Shore, combining vibrant economic opportunity, quality public education, world-class healthcare, reinvigorated environmental stewardship, globally known corporations, and an energetic and inspiring team of community leaders, to chart its own course, and craft a sound plan for its future.

We are Salisbury, and we are a college town. As the home of Salisbury University, we welcome students around the globe to come for a top-notch education. Around every corner, you can meet a former SU student who has fallen in love with our town, and decided to stay, and make it their own.

We are Salisbury, and we are a river town. The Wicomico River starts here. Water runs through our downtown and our city park. Bridges crisscross the water standing as a physical reminder of the importance on connections. The active port and marina districts remind us that the water continues to work for us, and the new Riverwalk reinforces that it is also ours to enjoy.

We are Salisbury, and we are a cultural town. From the art galleries and studios of our community's artists to the celebration of the arts each month at Third Fridays, and the flavors and traditions of our many cultures, Salisbury is bringing the community together and celebrating the best of what makes us different.

We are Salisbury, Maryland.

We invite you to discover our ever-changing downtown, explore our zoo, parks, and trails, and connect with this special place we call home. We are working hard, everyday, because our friends and neighbors deserve it, and because our community is worth it.

We invite you to be our guest, experience the warmth of the Heart and Soul of Delmarva, and discover what we mean when we say:

Budget Policies and Procedures

The Annual Budget is a fiscal plan which presents the services to be provided to the community and the funds necessary to perform these services. Key steps in this process are described within.

Budget Policies and Procedures

Budget Preparation

The City of Salisbury operates under a fiscal year that begins on July 1st and ends June 30th. The major steps in the process are outlined below:

Departments submit their requested operating budgets in January for the fiscal year commencing the following July.

The Capital Improvement Plan is finalized by the Mayor in January.

All budget requests are compiled by the Finance Department and presented to the Mayor for review. The basis for budgeting is consistent with the basis of financial reporting as described in these policies.

On or before April 15, the Mayor formally presents the balanced budget and budget message to the City Council at a public meeting. The budget is “balanced” when operating revenues are equal to operating expenses. Taxpayer comments are requested.

A series of Budget Work sessions and public meetings are held before making any final changes to the Mayor Proposed budget.

The annual budget is formally adopted by City Council before July 1st.

Budget Control

Accounting Basis Budgetary control is maintained at the “Budget Group” level as presented in the budget ordinance. During the fiscal year the Mayor may approve the transfer of funds within a budget group; however, any transfers required between Budget Groups must be approved by the City Council via a Budget Ordinance. Any change in the total budget amount requires the approval of the City Council.

The final budget amounts are reported based on the original budget adjusted for authorized transfers and amendments. Annual operating budgets are appropriated for the general fund, water sewer fund, marina fund, and parking fund. Any excess of total expenditures and encumbrances over total budgeted appropriations by individual departments is in violation of certain legal provisions.

Capital Program

Budgetary control for Capital Projects is achieved through a capital improvements program for all capital projects funds. Capital Projects funds are maintained as Multiyear funds where appropriations are maintained at the end of year.

Encumbrances

Appropriations which have not been expended or lawfully encumbered lapse at the end of the budget year. Any lawfully encumbered appropriations at year end are carried forward to the following year and increase the following year’s budget appropriation by the amount of the encumbrance(s).

Encumbrances related to grant-funded contracts may cause a deficit undesignated fund balance in some funds. This results from a timing difference between the recording of the original encumbrance of the contract and the recognition of the grant revenue when it is measurable and available.

Budget Policies and Procedures

Reporting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Entity-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned and unavailable revenue, and in the presentation of expenses versus expenditures.

Financial Structure

The financial transactions of the City are budgeted and recorded in individual funds. A fund is an independent financial and accounting entity. It is a set of interrelated accounts used to record revenues and expenditures associated with a specific purpose. Funds have a balancing set of accounts and records, cash and other financial resources in conjunction with all related liabilities and residual equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations or restrictions. Funds are classified into three basic types: governmental, proprietary or fiduciary.

Governmental Funds

Governmental funds are used to account for all or most of the government's general activities, including the collection and disbursement of earmarked monies, the acquisition or construction of general fixed assets and the servicing of general long-term debt. The following types of governmental funds are utilized by the City:

- The General Fund is the principal fund of the City of Salisbury and is used to account for all major activities of the government such as Administration, Police, Fire, and Public Works.
- Special Revenue Funds are used to account for the proceeds of specific revenue sources legally restricted to expenditures of specific purpose. Examples of Special Revenue funds used by the City of Salisbury include: Curb/Cutter Fund, Sidewalk Fund, Community Development Project Fund, and the Grant Fund.
- Capital Project Funds are used to account for financial resources for the acquisition, renovation or construction of major capital facilities and improvements.

Proprietary Funds

Proprietary funds are used to account for activities similar to those found in the private sector. Enterprise funds account for activities that are usually self-sustaining, principally through user charges for services rendered. The City utilizes proprietary funds as follows:

- Water Sewer Fund
- Parking Fund
- Marina Fund

Budget Policies and Procedures

Fiduciary Funds

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments or on behalf of other funds within the government. When these assets are held under the terms of a formal trust agreement either a pension trust fund, a nonexpendable trust fund or an expendable trust fund is used. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent. Traditionally these funds have not been included in the Operating Budget because the receipt of revenue is uncertain. The City maintains fiduciary fund for the Health Care Trust, Police Confiscated Funds, and Bay Restoration Funds.

Accounting Basis

The governmental funds are accounted for on the modified accrual basis of accounting. Under this basis, revenues are recognized when they are susceptible to accrual, when they become measurable and available. Likewise, expenditures are recorded as the liabilities are incurred, if measurable. However, principal and interest on general long-term debt are recorded as fund liabilities when due. Revenues susceptible to accrual are property taxes, licenses, interest revenues and charges for service. Fines are not susceptible to accrual generally since they are not measurable until received in cash. The City considers property taxes as available in the period for which they were levied if they are collected within 60 days after year-end.

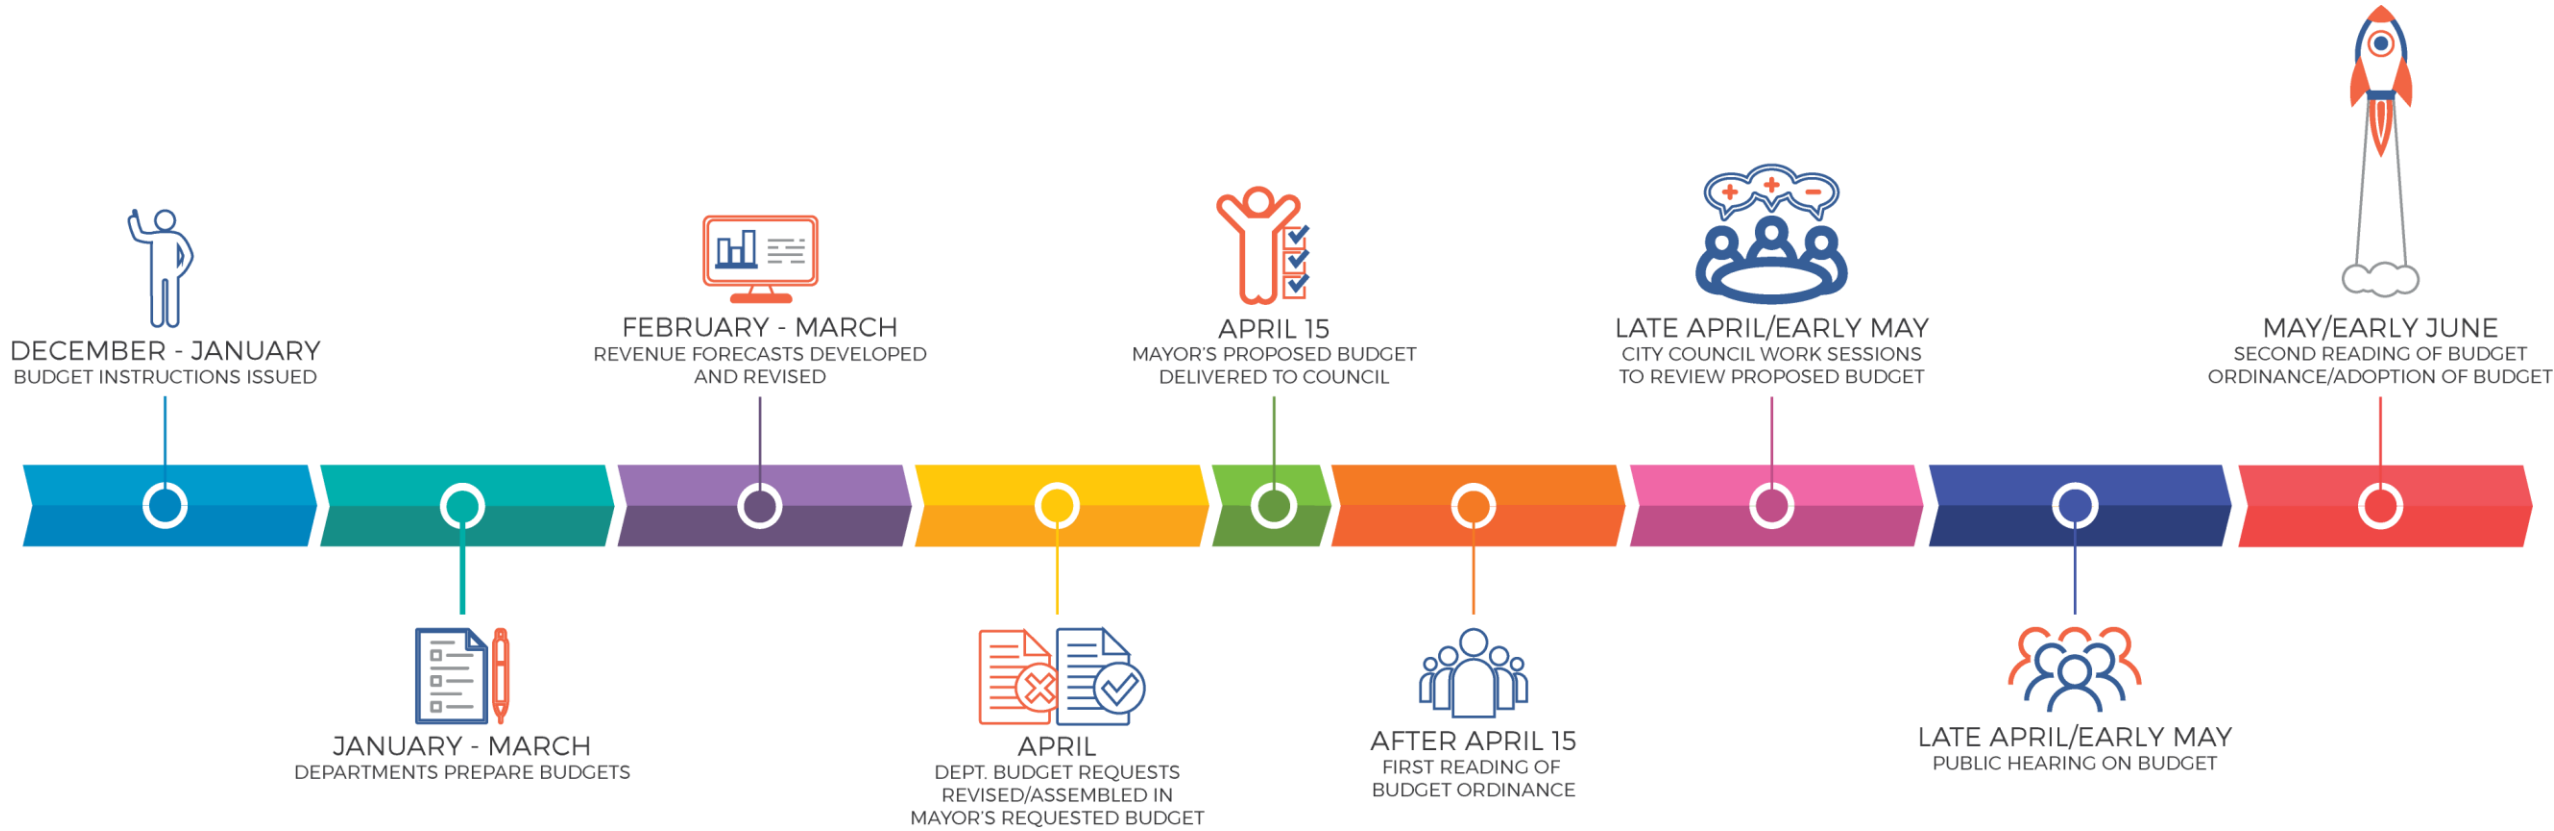

The accrual basis of accounting is utilized by proprietary fund types, pension trust funds and non-expendable trust funds. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. Estimated uncollectible accounts receivable are reserved at year-end.

Budgetary Basis

All budgets are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP); except that depreciation is not considered. The General, Special Revenue, and Capital Project funds are developed on a modified accrual basis. Enterprise fund budgets are developed on the accrual basis. All annual appropriations lapse at the fiscal year end.

The basis for budgeting is consistent with the basis for accounting with the difference being encumbrances. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for expenditures of resources are recorded to reserve that portion of the applicable appropriation, is utilized in governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures because the commitments will be carried forward to subsequent years' budget appropriations.

Budget Calendar

Financial Policies

Capital Improvement Plan

- The City Administrator shall develop and maintain a projection of capital improvement projects (Capital Improvement Plan) for the next five years based on the known and anticipated needs of the City, and on Mayor/Council-approved projects. The Capital Improvement Plan (CIP) should be tied to projected revenue and expenditure constraints. Future planning should consider periods of revenue surplus and shortfall and adjust future programs accordingly. CIP includes long-term maintenance and rehabilitation requirements for proposed projects. Each fiscal year, the City Administrator will update the CIP to include current information and submit to the Mayor and City Council.
- The City's capital plan will take into account the borrowing limitation of the City, as well as the ability of the City to finance the debt.
- The CIP process shall include a financial analysis and narrative of the long-term maintenance and rehabilitation requirements for proposed projects.

Capital Improvement Funding

- Within the limitation of existing law, various funding sources may be utilized for capital improvements. Capital projects shall be dictated by the nature of funding available except to the extent that the projects meet an initial test of being required to achieve City goals and to the extent that projects must be placed in priority dictated by the nature of the funds available.
- The City shall actively pursue outside funding sources for all projects for the CIP.

Capital Improvement Financing

- The City shall maintain an ongoing monitoring system of the various outstanding bond indebtedness issues and utilize this reporting system as a criterion for the administration of the City's outstanding indebtedness.

Use of Debt Financing

- Debt financing shall generally be limited to one-time Capital Improvement Projects and only under the following criteria:
- When the project's useful life will exceed the term of the financing; and
- When the project will benefit the citizens.

Financial Policies

Leasing

- Lease purchases shall be considered only when the useful life of the item is equal to or greater than the length of the lease. If the item may become technologically obsolete or is likely to require major repair during the lease purchase period, then the item should be either purchased or placed on a term operation lease.

Revenues

- The city will conduct an annual review of specific programs and services which have been identified as potential candidates for user fees. Where appropriate, user fees will be set at a level sufficient to recover the full costs of the program or service.
- The City's enterprise operations shall set their enterprise fees at a level sufficient to recover the full costs of enterprise operations.

General Fund Budgeting

- The basic format of the budget shall identify programs within organizational structures. Programs are defined as specific services provided to the public, other departments or other organizations. All assumptions, transfers, and other relevant budget data shall be clearly stated.
- The City shall operate under an annual balanced budget ordinance in which the sum of net revenues and appropriated fund balance is equal to appropriations.
- The City will avoid budgetary procedures that balance current expenditures at the expense of meeting future years' expenses, such as postponing expenditures, accruing future years' revenues, or rolling over short-term debt.
- Where possible, the budget and subsequent status reports will integrate performance measurements and productivity indicators.
- In instances where specific activities /purchases are authorized by the mayor and City Council in a certain fiscal year and remain incomplete and/or unexpended, revenues and/or fund balance may be carried forward, at Mayor and City Council's discretion, into the next fiscal year to support such activities/purchases.

Financial Policies

General Fund Budgeting Continued

- Provisions **will be** made for adequate maintenance of the capital plant and equipment and for their orderly rehabilitation and replacement, within available revenue and budgetary limits.
- To show true costs, expenditures (including internal costs) will be allocated directly to the appropriate Fund.
- Budgetary and accounting procedures will conform to Generally Accepted Accounting Principles (GAAP) for governmental agencies.

Reporting Responsibilities

- The Director of Finance will be held accountable for assuring that departmental expenditures stay within the department's budget appropriation, and will notify the City Administrator immediately of the necessity to amend the budget in the event an over expenditure is anticipated.
- The Director of Finance will submit quarterly budgetary reports to the City Administrator for forwarding to the mayor and City Council comparing actual revenues and expenditures to budget estimates.

Fund Balances/Reserves

- The City shall endeavor to maintain an undesignated fund balance equal to 10% of the following Fiscal Year's General Fund Adopted Budget, with any amount in excess of 10% being credited to a capital project account. These funds are available to be utilized to pay for capital projects with priority being given to those projects that would otherwise be funded through the issuance of debt.
- If, at the end of a fiscal year, the undesignated fund balance falls below 10%, then the City shall develop a plan to rebuild the balance. The plan shall include specific time frames not to exceed five (5) years and the amount for each year.
- After adoption of the budget, allocation of funds from the undesignated fund balance requires review and approval of the City Council. As a general rule, these monies shall only be used to prevent/alleviate dangerous conditions, to prevent catastrophic disruptions in City services and/or to provide funding for necessary expenditures that were not anticipated at the time that the budget was adopted.

Financial Policies

Fund Balances/Reserves Continued

- The original adopted General Fund Budget shall not utilize the undesignated fund balance (reserve) to fund non-capital expenditures or general operating expenses in excess of 1% of that year's original adopted General Fund Budget.
- Capital items funded in the adopted budget utilizing the undesignated fund balance cannot be cut without a corresponding addition back to the undesignated fund balance, as to prohibit the undesignated fund balance being utilized for general operating expenditures, without a budget amendment

Auditing

- The City shall have its accounts independently audited at the close of each fiscal year by a certified public accountant.

Equipment Replacement Criteria

- Vehicle replacement will be evaluated using the average of the past two years of maintenance for a particular vehicle compared to the expected replacement cost for the same vehicle.
- A vehicle replacement schedule will be developed and updated annually based on the current condition of each vehicle and the expected life of each vehicle category.
- Any vehicle that has an average past two years' maintenance greater than or equal to 80% of the expected replacement cost will be targeted for replacement.
- Any vehicle not meeting the 80% threshold will require written justification for replacement, including such reasons as: vehicle obsolescence; parts unavailability; change in vehicle function rendering it unproductive; serious vehicle accident, and low salvage value.

Financial Policies

Investments

- The City shall maintain an available funds balance of less than \$1 million to ensure that sufficient funds are available to cover all reasonably anticipated transactions. All other idle funds will be invested daily, except when large monetary transactions are anticipated and a larger balance is necessary.
- All City funds (excluding any investments related to Other Post-Employment Benefits obligations) will be maintained in secured bank accounts or invested with the Maryland Local Government Investment Pool

Water and Sewer Fund Financial Forecast

- Annually, the City will prepare a five-year financial forecast for the water and sewer fund.
- The target amount for surplus balance in the water and sewer fund will be calculated as the total of 25% of Operating and maintenance budgeted, 100% of the current year's debt service and 100% of the capital expenditures funded through current operations.

Debt Policy

The State of Maryland has required that Municipalities establish debt management policies. The City recognizes that it may need to enter into long-term financial obligations to meet the demands of providing a high quality and level of government services to our community. The following long-term debt policy sets the considerations for issuing debt and provides guidance in the timing and structuring of long-term debt commitments by the City.

General Debt Information

The attached sections of the City Charter (SC 7-45 through SC7-48) form the basis of the City's debt policy. (See attachment A for Charter sections)

Additional policy Information:

1. Debt issuance is an acceptable method of financing infrastructure and public facility projects within the City; however, this financial mechanism should only be used if current revenues cannot cover the costs.
2. The City's debt management shall conform to all other budgeting and financial reporting policies where applicable. All debt issuance shall comply with the Federal, State, and City Charter requirements.
3. The City will not use long-term borrowing to finance current operations or normal maintenance. Normal maintenance does not extend the useful life of an asset.
4. The term of any debt issue shall not exceed the useful life of the assets being acquired by the debt issue. The City intends the average maturity of general obligation bonds to be at or below 20 years.

Debt Policy

Additional policy Information Continued:

5. As of the effective date of adoption of these policy guidelines, the City of Salisbury has no outstanding variable rate indebtedness, nor has it entered into any municipal derivatives contracts (i.e.; interest rate swap agreements). At this time, these types of debt issuances and/or contracts will not be entered into.
6. The Director of Finance along with the City Administrator, and with the assistance of other finance professionals when necessary (e.g., bond counsel, a financial advisor, etc.) oversees and coordinates the timing, issuance process and marketing of the City's borrowing and capital funding activities required in support of its financing and capital improvement plans.
7. Accompanying each debt issue will be an assessment of the City's capacity to repay the debt. The assessment will address the effects on the current operating budget, commitments to future operations, maintenance costs and will also identify reliable debt retirement sources.
8. In order to maintain the ability to borrow funds for emergency purposes, the City will not borrow funds if such borrowing is within 10% of the City's legal debt margin except in emergencies when authorized by the City Council.
9. General Obligation Debt payments for the General Fund shall not exceed 10% of General Fund operating expenditures.

Debt Policy

The financial activity of the City of Salisbury takes place in accounting entities called funds. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures.

The General Fund is the City's primary operating fund and accounts for basic governmental services. It accounts for all the financial activity of the general government, except for those required to be accounted in another fund.

Other fund types are: Special Revenue, Capital Project, Enterprise and Agency Funds.

Funds where appropriations are set with annual budgets include the General Fund, Water Sewer Fund, Marina Fund, Parking Fund, and the Storm Water Fund.

Special Revenue Funds

Used to account for revenues derived from specific taxes, grants, or other restricted revenue sources. The use & limitation of special revenue funds are specified by City ordinance or federal or state statutes.

Capital Project Funds

Used to account for the acquisition or construction of major capital investments.

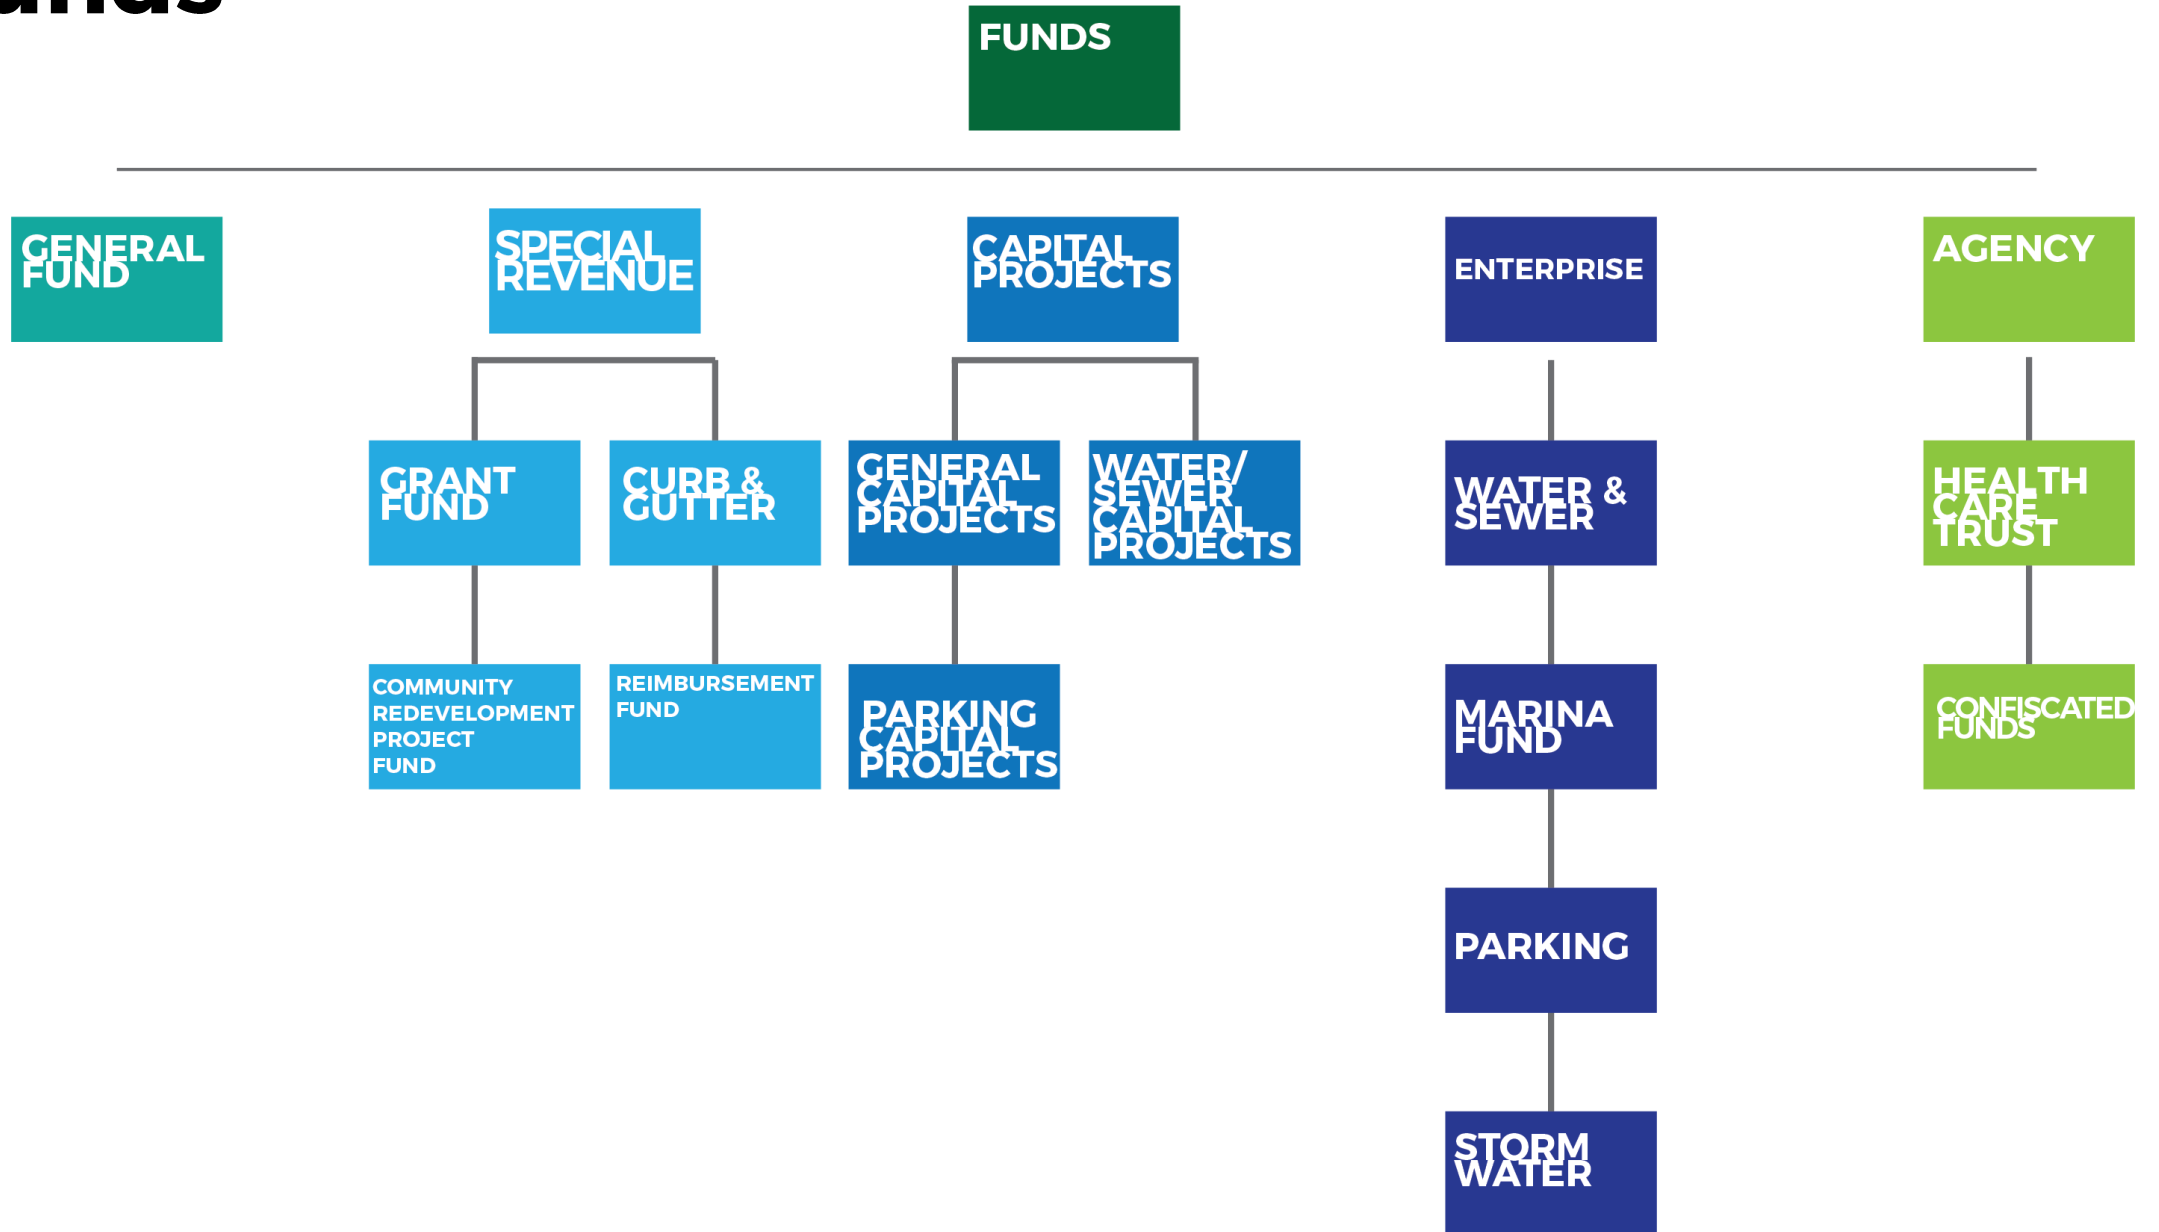

Enterprise Fund

Used to account for operations that are financed in a manner similar to private business.

Agency Funds

Used to account for revenues that belong to parties other than the City. The Court is our only Agency Fund

General Fund Revenue: Taxes

Taxes are generated based on the estimated assessed value of real property, historical collections and distribution of personal income taxes. The tax rate is the amount charged per \$100 of assessed value; as determined by the Maryland State Department of Assessments and Taxation. The Mayor and City Council establish the tax rate each year through the adoption of an ordinance. The budget is determined by previous year trends. The following chart shows the estimated assessed value of taxable real, business and personal property and the associated revenue.

The Salisbury Police Department strives to provide the highest quality of police services to the Salisbury community through a strong partnership with its citizens. SPD serves with the goal of improving the quality of life within the City of Salisbury, while at the same time maintaining respect for individual rights and human dignity.

Editor's note: Officer Aaron "Bull" Hudson once told me that if we wanted to have a truly top-notch budget, the only sure way was to include a picture of him and his "million dollar smile." (That's a direct quote, by the way.)

So for our friend, our partner, our brother - let's have a top-notch budget, shall we?

We miss you every day, big guy. 142 Forever.

Water Works

The Waterworks Department serves to oversee the safety and sanitation of all City water and sewer systems, including the water and wastewater treatment plants. With internal quality control and biweekly metric reports, the City's Waterworks Department is dedicated to the maintenance and improvement of our water services.

Water Works

Departmental Goals and Priorities

GOALS

1. Produce drinking water to meet/exceed Federal drinking water standards 100% of the time.
2. Reduce unaccounted water use to under 10% of annual production.
3. Operate WWTP in compliance with NPDES Permit Standards 100% of the time.
4. Respond to water and wastewater emergencies within one hour, 95% of the time.
5. Maintain the quality of the WWTP sludge at a level that allows its use and disposal in compliance with applicable state regulations.
6. Prevent the introduction of pollutants into the municipal wastewater treatment works which may result in physical, biological or monetary damage to the works.

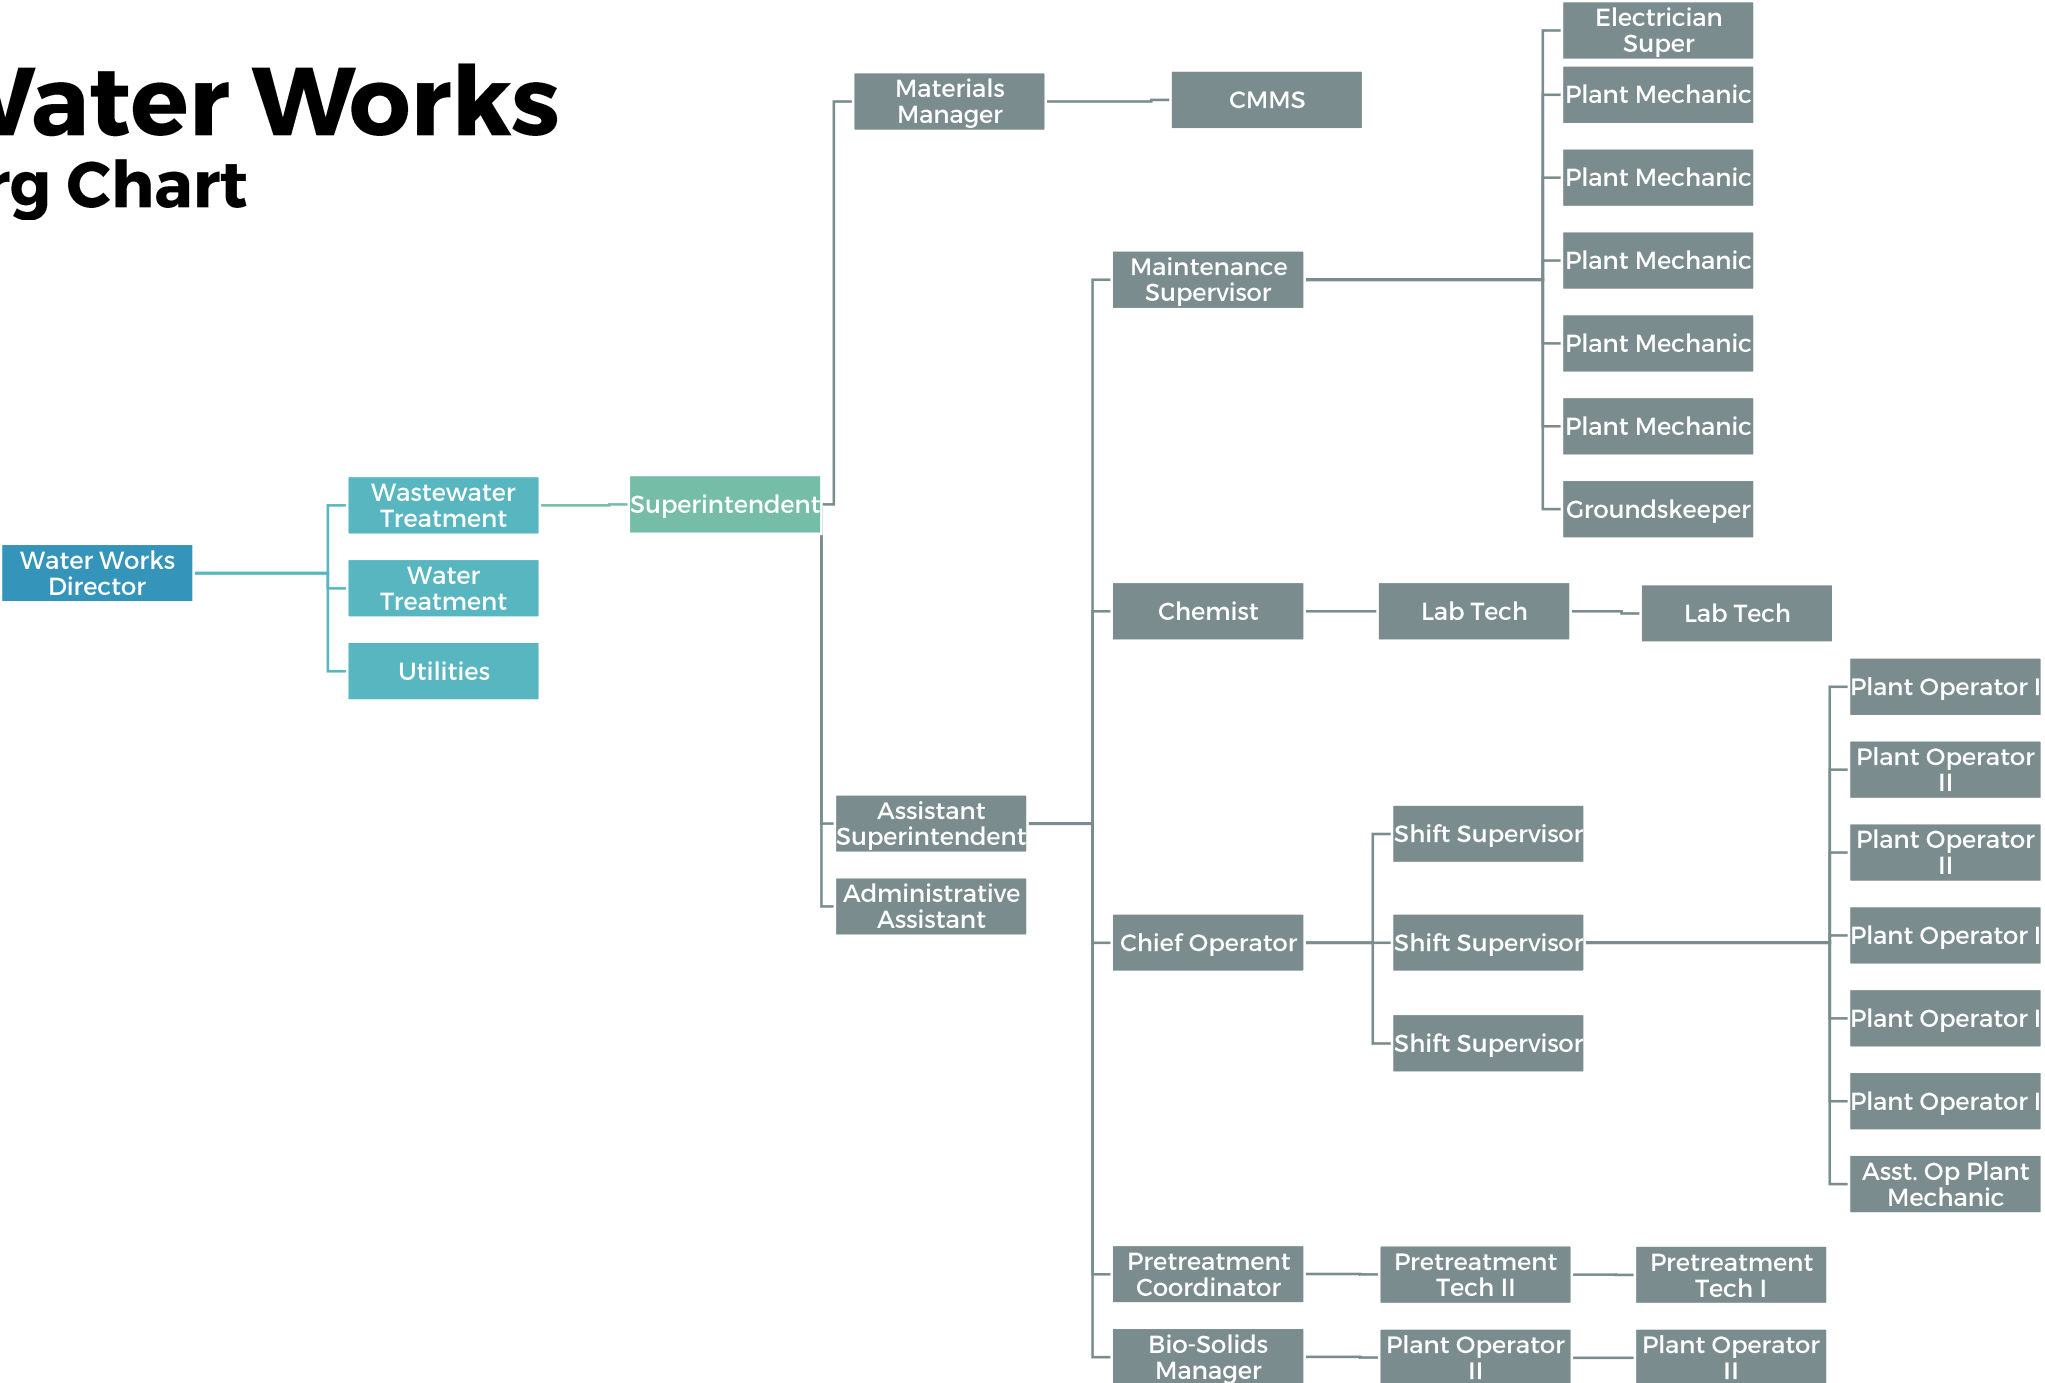

Water Works

Departmental Goals and Priorities

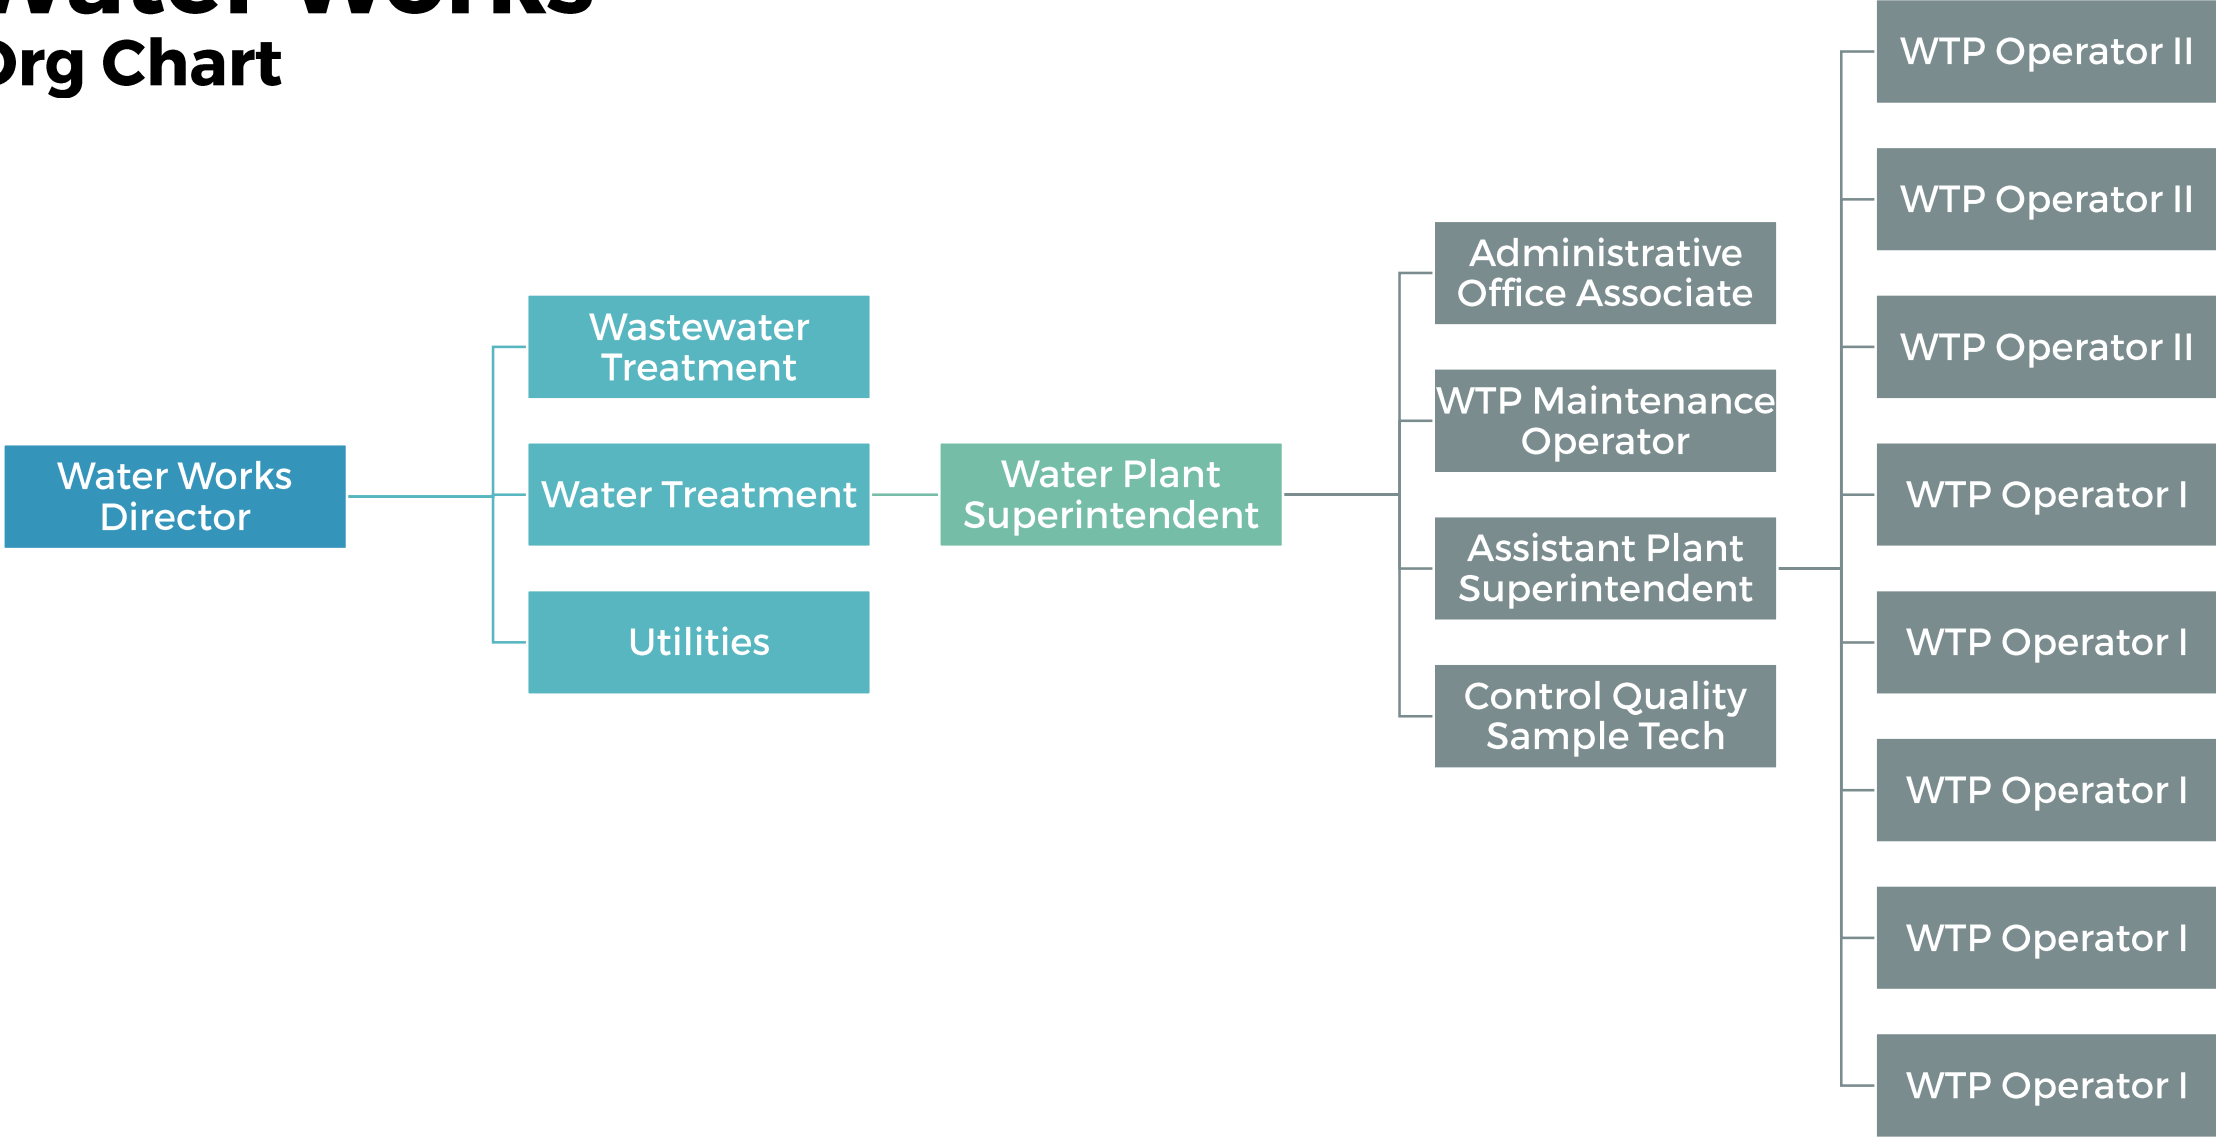

PRIORITIES

1. Openly and regularly communicate with citizens of the City by distributing annual Water Quality Report.
2. Provide water conservation outreach and education at City festivals, fairs and Earth Day.
3. Respond to all water quality complaints.
4. Provide for well field rehabilitation and expansion.
5. Ensure the quality of the WWTP effluent discharge entering the receiving waters of the Wicomico River meets National Pollutant Discharge Elimination System Permit requirements.
6. Facilitate ability of the WWTP to maintain compliance with State and Federal requirements.
7. Reduce the risk of storm related Sanitary Sewer Overflows through use of best management practices and improvements.
8. Promote a cooperative relationship between industrial users and the City through education in pretreatment requirements and procedures while preventing the introduction of pollutants into the city wastewater system.

Schedule VIII Commercial and Industrial Activities

	Annual In City Rate	Annual Outside City Rate
1) For each fire service	\$373	\$746
2) For each standby operational service	\$373	\$746

B. Definitions:

Residential and Small Commercial Customers – These customers have average water utilization of less than 300,000 gallons in a quarter.

Commercial Customers – These customers have average water utilization of 300,000 gallons to 600,000 gallons per quarter.

Large Commercial/Industrial – These customers have average water utilization over 600,000 gallons per quarter.

Average Water Utilization Per Quarter – This will be based on annual consumption divided by 4 to get average quarterly water utilization.

C. Calculation of Bills:

For Residential and Small Commercial Customers – The minimum charge for both water and sewer will apply if water service is turned on at the water meter and usage is 0-6,000 gallons per quarter. Only the City can turn a meter on and off. For usage of 7,000 gallons and above, the commodity charge will be applied for each 1,000 gallons used and the minimum charge will not be applied.

For Commercial and Large Commercial/Industrial Customers – Every quarterly bill will receive a customer charge for both water and sewer. Then for each thousand gallons used the appropriate commodity charge will be applied.

AND BE IT FURTHER ORDAINED AND ENACTED that this Ordinance was introduced at a meeting of the City Council held on ____ the ____ day of _____, 2019 and duly passed at a meeting of the Council of the City of Salisbury, Maryland held on the ____ day of _____, 2019 and is to become effective with bills dated October 1, 2019 and after.
