Explanation of Request: The applicant is requesting the Salisbury Historic District Commission approve their request to paint an art mural on back side of building.

Areas of Historic Guidelines to be considered:

Guideline 15: General Painting Guidance

- a. Generally, wood surfaces should be painted.
- b. Unpainted masonry surfaces should remain unpainted.

Guideline 16: Painting Masonry Surfaces

Removing paint from masonry can damage the underlying surface. Removing paint in good condition from masonry substrates is not recommended. In some instances, soft historic brickwork was painted historically in order to increase its durability.

- a. Painted brick surfaces should generally remain painted.
- b. Damaged or deteriorated paint should be removed by hand only to the next stable layer prior to repainting. Paint that is well adhered should not be removed. If a painted masonry surface is in good condition and the paint is firm and not peeling, the building can be safely repainted.
- c. Painting formerly unpainted masonry surfaces is discouraged, unless documentary evidence shows that the surface had been historically painted.

Evaluation Criteria:

Pursuant to Section 17.52.040 A & B of the Salisbury Zoning Code, it is the duty of the Historic District Commission to review all applications to construct, alter, reconstruct, move or demolish any structure within a Historic District whenever the exterior appearance of such structure is affected, and to approve or reject said application. In reviewing an application and plans, the Commission should give consideration to review criteria, and may make a determination as to which of said Criteria are applicable.
