## Salisbury Historic District Commission

### STAFF FINDINGS

Meeting Date: March 25, 2020

Case Number:

Commission Considering: Vinyl Window& Siding Installation

Owner's Name: Cristina Tusca
Owner's Address: 610 Light Street

Salisbury, Maryland 21801

Applicant Name:Cristina TuscaApplicant's Address:610 Light Street

Salisbury, MD 21801

#20-08

**Agent/Contractor:** None Indicated

**Subject Property Address:** 610 Light Street

**Historic District:** Camden Historic District

**Contributing Structure:** Non-Contributing 6/28/2017

Use Category: Residential

**Zoning Classification:** R-8

**Structure / Site Description:** 

Built Date: 1922 Enclosed Area: 1,320 Lot Size: 3,100 Number of Stories: 2

Wicomico County Historic Survey on file: No

**Nearby Properties on County Survey:** No

**Explanation of Request:** The applicant is requesting the Salisbury Historic District Commission approve their request to make the following alterations:

- 1. Install Vinyl Windows.
- 2. Place vinyl siding on home.

# Relevant Historic, Archeological and Architectural Significant Features of the Surrounding Area:

The property in question is located within the Camden Historic District. The majority of houses located in this district on Middle Blvd., North Blvd., South Blvd., Smith Street and Hazel Avenue have vinyl replacement windows. The Salisbury Historic District Commission approved 301, 303, 222 and 231 Middle Blvd.; 233 South Blvd.; 700 Smith Street for vinyl replacement windows. The houses in this district range in age and were built starting in the early 1900's to the early 1960's. There's a mix of architectural styles in the surrounding area with no prevalence in any specific style.

Neighboring Properties which have been deemed Contributing/Non-Contributing:

House #	Street Name	Hearing Date	Contributing	Non- Contributing	
609	Light Street	4/23/14	Not determined – approved on consent agenda		
611	Light Street	3/27/13	X		
620	Light Street	5/11/15		Х	

#### Areas of Historic Guidelines to be considered:

#### Guideline 3: Restore Significant Historic Features

- a. Whenever feasible, historic materials and details should be restored. Restorations of historic buildings should be completed under the direction of architects or professionals with specialized skill in building restoration and preservation.
- b. Inappropriate coverings, such as vinyl siding applied over historic wood siding, should be removed and the underlying material repaired or replaced with siding which mimics the appearance of the historic material as closely as possible.
- c. Non-historic alterations should be removed to restore the historic appearance. This may include re-opening in filled windows or replacing inappropriate vinyl porch posts with new turned wood posts to recreate the porch's historic appearance. Such changes should be supported by physical evidence, historic photographs or other documentary evidence. Where no evidence of the appearance of the original feature exists, a simple design consistent with the scale and massing of the building and surrounding area is generally preferred.
- d. Historic alterations that have achieved significance in their own right should be retained.

#### Guideline 12: Preserve Historic Wood Siding

- a. Maintain and preserve existing wood siding. Keep paint intact to preserve wood features.
- b. Repair damaged wood siding by replacing in-kind only the affected boards or shingles. Keep sound material in place.
- c. Do not replace sound historic siding material with new materials for the sake of convenience.

#### Guideline 13: Match Existing or Historic Siding

- a. Where full-scale siding replacement is necessary, match the historic or existing siding on the building. Keep the details (width of wood boards, shingle size, corner and seam details, etc.) consistent with the historic appearance.
- b. When replacing non-historic siding that was inappropriately applied, chose an appropriate replacement that is consistent with buildings of the type, period, and architectural style.
- c. Do not cover historically uncovered masonry surfaces with siding. Siding applied to masonry surfaces has the potential to hold moisture and cause damage to the underlying wall.

#### Guideline 14: Synthetic Siding

Synthetic siding describes a siding product not made from natural materials. Vinyl, asphalt, and fiber cement board are the most commonly found synthetic siding types.

- a. The use of new synthetic siding may be approved on a case by case basis if one or more of the following conditions are met.
- b. Historic decorative details should not be removed or covered by synthetic siding. These details include but are not limited to cornices, window hoods, moldings, eaves, decorative shingles, and trim.
- c. Synthetic siding may not be applied over historically uncovered masonry walls.

#### Guideline 51: Replacement Windows for Residential Properties

- a. Where window replacement is necessary, the new window should match the historic window in size, type, glazing pattern, and profile.
- b. The number of window panes and the approximate muntin and mullion profile should match the historic window.
- c. Removable, snap-in, or "between the glass" muntins are not historically appropriate.
- d. Maintain the historic window opening size and surrounding trim.
- e. Do not alter the size of the historic window opening to accommodate larger or smaller windows.
- f. Do not remove or cover surrounding trim, including wood and masonry details.
- g. Maintain the window type. For example, do not replace double-hung windows with new casement windows, or replace casement windows with fixed windows.

#### **Evaluation Criteria:**

Pursuant to Section 17.52.040 A & B of the Salisbury Zoning Code, it is the duty of the Historic District Commission to review all applications to construct, alter, reconstruct, move or demolish any structure within a Historic District whenever the exterior appearance of such structure is affected, and to approve or reject said application. In reviewing an application and plans, the Commission should give consideration to review criteria, and may make a determination as to which of said Criteria are applicable.

Staff Findings Prepared By: Jimmy Sharp Infrastructure and Development 125 N Division Street, Suite 202 Salisbury, MD 21801 (410) 548-3170 Date: March 12, 2020
