

## Fitch Ratings: Coronavirus Effects for U.S. States and Locals Still Developing

Fitch Ratings-New York-12 March 2020: The vast majority of U.S. state and local governments are well-positioned to absorb the near-term credit implications from the coronavirus outbreak, but the situation remains uncertain and is evolving rapidly, according to Fitch Ratings.

Local government fund balances are generally robust and state governments typically benefit from exceptional inherent budget flexibility. Some governments, as reflected in lower Issuer Default Ratings (IDRs), are more vulnerable to budget strain from unexpected stress events such as the coronavirus pandemic. Ongoing market declines could increase pension liabilities and contribution needs over time. Capital markets access is generally not a concern given that states and locals typically amortize debt annually and use it primarily for deferrable capital projects. Fitch is assessing whether specific governments face near-term credit risk in this evolving situation. Fitch is reviewing economic and fiscal data, and is in regular touch with issuers.

The high IDRs for most states and locals reflect Fitch's view that they can absorb deterioration in the fiscal and economic environment without immediate effects on credit quality. For cities, counties, and school districts, Fitch's review of comprehensive annual financial reports finds that median available general fund balances were between 20%-30% of fiscal 2018 spending, reflecting the long period of economic expansion most governments have benefitted from.

Nearly all states have robust ability to adjust revenues and expenditures (including downloading costs to locals which are generally positioned to absorb them as noted above), and can tap into various balances on at least a short-term basis. States' median available governmental fund balance as a percentage of fiscal 2018 spending was a solid 8%, as states have likewise benefitted from the long period of economic expansion and generally rebuilt sizable budgetary reserves..

Coronavirus has led to increased spending by states and locals for prevention and treatment measures which are likely to escalate, and it will reduce economic activity and government revenues. Their potential depth and breadth will drive any rating changes. A severe downturn could pressure state and local governments' resilience and trigger more widespread rating implications.

Most states and some locals are susceptible to sometimes meaningful revenue declines absent policy action in the face of a significant financial market and/or economic downturn. States rely primarily on a mix of sales and income taxes, while local governments rely primarily on property taxes and to a lesser extent sales or income taxes. Governments most reliant on discretionary economic activity or directly engaged in healthcare delivery are more at risk. Dedicated tax bonds with more narrow revenue pledges are also at higher risk, though ratings incorporate an assessment of the resilience of these structures to deep historical declines, including through the Great Recession.

Fitch anticipates focusing on several factors over the coming weeks and months including:

- Tourism and visitor-related revenue such as hotel and lodging taxes;
- Sales and use taxes, or similar broad consumption levies such as general excise taxes;
- Severance taxes and other natural resource-related revenues, particularly for oil;
- Personal and corporate income taxes;
- The scope of direct government coronavirus spending;
- Labor market indicators including unemployment insurance filing claims, non-farm payrolls, and unemployment rate;
- Scope of travel or movement restrictions that limit economic activity;
- Federal measures including healthcare funding, direct consumer stimulus or industry-specific support;
- Effects of market volatility on pension systems, including annual contributions and liability burdens.

Fitch has observed anecdotal instances of coronavirus beginning to affect state and local governments with a small sample listed below. Fiscal effects are only just unfolding and Fitch anticipates more actions:

- Hawaii's Council on Revenues recently revised the general fund revenue forecast downward by approximately \$300 million over this fiscal year and next, primarily due to coronavirus effects;
- New York's governor recently requested the state comptroller "perform a risk analysis" of the state's revenue forecast, accounting for economic implications of the coronavirus;
- Washington's Department of Health has requested \$100 million in supplemental appropriations from the legislature for coronavirus management;
- San Francisco's city controller recently reported sharp declines in hotel occupancy and airport traffic and he estimated city revenue losses in the tens of millions of dollars.

Fitch considers announced measures within the capacity of state and local governments to absorb at current rating levels. There will be additional measures from state and local governments including revenue forecast updates, supplemental appropriations and draws on reserve funds. Many state and local governments are also in the midst of the budget enactment process for the upcoming fiscal year and enacted budgets are likely to account for coronavirus effects to the extent possible.

Plausible estimates as to the extent of the U.S. population ultimately to be afflicted with the coronavirus are wide ranging. A macro and financial market shock can have significant knock-on events, and, depending on the magnitude and duration, the effects on the housing market and other currently unanticipated factors that could affect state and local government credit quality may need to be assessed. Fitch will continue to monitor state and local governments in the context of the shifting and complex effects of the coronavirus.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes

only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

## Endorsement Policy

Fitch's approach to ratings endorsement so that ratings produced outside the EU may be used by regulated entities within the EU for regulatory purposes, pursuant to the terms of the EU Regulation with respect to credit rating agencies, can be found on the EU Regulatory Disclosures page. The endorsement status of all International ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for all structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
