

DEPARTMENT: Infrastructure and Development

POSITION: Director

TYPE: Executive

SALARY: Commensurate with experience

BENEFITS: Full Benefits

CLOSING DATE: First Consideration April 1, 2022

Overview: We are Salisbury, Maryland, and our town was born from the headwaters of the **Wicomico River**. This special place, nestled squarely between the beaches and the bay, has been attracting people to its stunning location for almost **300 years**. Now one of the largest cities on the peninsula, Salisbury serves as the *Capital of the Eastern Shore*, combining vibrant economic opportunity, quality public education, world-class healthcare, reinvigorated environmental stewardship, globally known corporations, and an energetic and inspiring team of community leaders, to chart its own course, and craft a sound plan for its future.

Department: The Infrastructure & Development Department (is the engineering, permitting, and inspection arm of a traditional Public Works Department in other communities) is responsible for administering all infrastructure and development projects in the City. The Department is the one-stop-shop for Developers entering the City to have projects reviewed through all phases including Planning, Engineering, Traffic Control, Building Permits, Fire Marshal and Construction Inspection.

Profile: The Director will be responsible for leading, directing and managing the department leadership team comprised of a Supervisory Engineer, City Planner, and Buildings, Permits, and Inspections (BPI) Manager, and Office Manager. The Director will manage an extensive portfolio of infrastructure and development projects. The Director will be a visionary leader who is dynamic, solution-oriented, and results-driven with a passion for public service. The Director must be a strong mentor who is dedicated to creating and maintaining a highly professional and accountable culture that attracts and retains the best talent. The Director will manage robust capital and operational budgets; cultivate relationships with the development community; and work with local, state, and federal regulatory agencies.

Preferred Education: Bachelor's degree in engineering, urban planning, architecture and/or related field

At least seven years of experience as an engineer with preferred experience in civil

Preferred Experience: engineering, urban design, and stormwater management. At least five years of management experience.

Requirements/Certifications: State of Maryland Professional Engineer's (PE) License.

Valid State Issued Driver's License.
