Mayor Jake Day
City of Salisbury
City Government Office
125 N Division Street #304
Salisbury MD 21801

Dear Mayor Day,

As a Salisbury native and member of the community, I am seeking the opportunity to serve as a member of the Green Team Sustainability advisory committee. I will graduate in May from Salisbury University with a degree in Environmental Studies and a degree in Political Science, both of which have enabled me to learn the importance of sustainability in local government. During the past three years at Salisbury University I have served as a member of the Green Board, appropriating funding towards Green Initiatives on Salisbury's campus, and have gained experience with numerous green projects and by attending conferences.

I would love the ability to share my knowledge of sustainability and work with the Green Team in order to help make Salisbury a more sustainable city. One idea is to propose a City of Salisbury Recycling Plan to reduce the amount of recyclable waste currently entering the landfill, helping to save money by reducing landfill tipping costs for the city.

Salisbury, as the capital of the Eastern Shore, has the opportunity to be an example for many local cities. As we continue to grow and develop, I believe that including sustainability in our city's mission is very important and I look forward to working with the Green Team members towards accomplishing that goal.

All the best,

Alyssa Massey
