### About DID

The Infrastructure and Development Department is responsible for administering all infrastructure and development projects in the City. The Department is the one-stop-shop for Developers entering the City to have projects reviewed through all phases, including Planning, Engineering, Traffic Control, Building Permits, Fire Marshal, and Construction Inspection.

### Profile

The City of Salisbury’s Project Engineers enhance the quality of life of our citizens by implementing infrastructure improvements and development projects in the City. You will be responsible for managing infrastructure projects including ensuring compliance with scope, budget and schedule. Specific duties include development plan review, engineering planning and design, and construction project administration.

### Preferred Education

Bachelor’s Degree in Engineering;  
ABET Accreditation

### Preferred Experience

5 years relevant professional experience

### Requirements/Certifications

E.I.T required  
P.E. Preferred

### How to Apply

**1 Visit [salisbury.md/apply](http://salisbury.md/apply)**

**2 Submit City application, cover letter, and resume**

Studies have shown that women and people of color are less likely to apply for jobs unless they believe they can perform every job description task. We are most interested in finding the best candidate for the job, and that candidate may come from a less traditional background. The City may consider an equivalent combination of knowledge, skills, education, and experience to meet minimum qualifications. If you are interested in applying, we encourage you to think broadly about your background and skill set for the role.
