### About Water Works

The Department of Water Works is responsible for the City water and wastewater systems and treatment facilities. The Department has two Divisions, Water and Wastewater, with a total staff of 50 professionals. The Department is responsible for the treatment and delivery of potable water to City homes and businesses, storage of water and maintenance of a network of piping, valves, and hydrants for fire protection, collection of wastewater and conveyance to a state of the art treatment facility to protect public health.

### Profile

Operates biosolids dewatering and drying equipment. Transports biosolids to disposal site. Assists with cleaning, preventative maintenance and repairs to biosolids equipment. Performs other duties as assigned. Maryland Class S Wastewater Certification preferred, but must obtain within 3 years. This position has a career ladder in place to assist with promotional opportunities.

### Preferred Education

High School Diploma or GED required.  
Actively pursuing a degree in Biology, Earth Science and/or Environmental Studies.

### Preferred Experience

Six (6) months of related experience.

### Requirements/Certifications

Valid "Class B" CDL Driver's License

### How to Apply

- 1 Visit [salisbury.md/apply](http://salisbury.md/apply)**
- 2 Submit City application, cover letter, and resume**

Studies have shown that women and people of color are less likely to apply for jobs unless they believe they can perform every job description task. We are most interested in finding the best candidate for the job, and that candidate may come from a less traditional background. The City may consider an equivalent combination of knowledge, skills, education, and experience to meet minimum qualifications. If you are interested in applying, we encourage you to think broadly about your background and skill set for the role.
