About Water Works

The Department of Water Works is responsible for the City water and wastewater systems and treatment facilities. The Department has two Divisions, Water and Wastewater, with a total staff of 50 professionals. The Department is responsible for the treatment and delivery of potable water to City homes and businesses, storage of water and maintenance of a network of piping, valves, and hydrants for fire protection, collection of wastewater and conveyance to a state of the art treatment facility to protect public health.

Profile

Performs routine and emergency installation, repair and maintenance of water, sewer, and storm drain systems. This work includes, but is not limited to, the installation and repair of water/sewer taps, emergency and routine system repairs, locating water/sewer lines, fire hydrant flushing and maintenance, valve exercise and maintenance/repair, cleaning and maintaining sewer lines. Performs other duties as assigned.

Preferred Education

High School Diploma or GED required. Actively pursuing a degree in Urban and Regional Planning and/or Physical Geology.

Preferred Experience

Six months related experience.

Requirements/Certifications

Valid Driver's License.
CDL Learner's Permit, DOT Medical card, Flagger Certification, CPR Certification, or ability to obtain.

How to Apply

1 Visit salisbury.md/apply

2 Submit City application, cover letter, and resume

Studies have shown that women and people of color are less likely to apply for jobs unless they believe they can perform every job description task. We are most interested in finding the best candidate for the job, and that candidate may come from a less traditional background. The City may consider an equivalent combination of knowledge, skills, education, and experience to meet minimum qualifications. If you are interested in applying, we encourage you to think broadly about your background and skill set for the role.
