

Do you know about Citizen Reporter??

This interactive application allows citizens to report problems or concerns to the City so that they can be solved in a timely manner. Anything from a burnt-out streetlight or pothole to missed trash pick-up can be reported through the new application, which also provides updates to citizens as City teams work to correct the

problem. The SBY Citizen Problem Reporter can be accessed from both Android and iPhones and reports can be made 24 hours a day, seven days a week. To access the SBY Citizen Problem Reporter, simply visit the City website, www.salisbury.md, and tap "Report an Issue," located at the very top of our homepage on desktops and under the menu tab on mobile devices.

News from the Salisbury Fire Department

The SWIFT Team will be presenting on their industry leading Mobile integrated Health program at the Fire-Rescue International Conference in Dallas in August and also the Mobile Integrated Health Summit in Las Vegas in September. This team is a joint partnership with the Salisbury Fire Department, Tidal Health, and the Wicomico County health Department.

CPR

The SFD offers CPR classes on the 4th Wednesday of every month at 6pm at Fire Station #16 on Cypress St. Please call 410-548-3120 to confirm your attendance.

PRESS RELEASE

Three Impending Downtown Salisbury Businesses Awarded State Grant Funding

On July 9, Governor Wes Moore announced that several small businesses within the City of Salisbury will receive a portion of \$16.2 million in Maryland Department of Housing and Community Development funding issued through three separate grant programs.

"Community growth and business growth are inextricably linked. When we invest in our small businesses, we invest in the neighborhoods they serve and the Marylanders they employ," said Gov. Moore.

Project Restore 2.0 grant funds totaling \$282,000 have been awarded for the build out of three new businesses in Downtown Salisbury. The funding applied for by and managed by the Arts, Business and Culture Department, can be used for the renovation and fit-out of the vacant buildings; and furniture, fixtures, and equipment. Proposals were solicited by the City in April and the projects chosen to be included in the application were then submitted to DHCD. Opening by the end of 2025 will be a unique tavern, a sophisticated wine bar and a trendy café.

"The grant aims to revitalize downtown and historic commercial areas by transforming vacant street-level properties into active spaces," said Allen Swiger, Director of the Arts, Business and Culture Department. "Downtown Salisbury is intended to be the hub of the City for fun and socialization. The introduction of these new establishments is expected to provide more options for people to enjoy while enhancing the area's vibrancy and appeal."

Work Continues on Glo Fiber Project

The Mayor's Office has received a couple of inquiries from residents who were concerned about digging in their neighborhood, which turned out to be connected to the running of Fiber Optic Cable throughout the Salisbury metro area by Glo Fiber.

Glo, which is part of Shenandoah Telecommunications Company, signed an agreement with the City of Salisbury in 2022 to provide more than 11,000 homes with an alternative to Comcast for television and high-speed internet services. In March of 2022, Glo announced the deal publicly.

Work began in 2023 and was expected to last for 18 to 24 months. In March of 2024, Glo began marketing services in select areas of Salisbury where work had already taken place. They will continue to work their way around the City.

For construction questions, residents can use the following:

www.glofiber.com/construction

1-866-997-6474

Construction complaint form: <https://www.glofiber.com/construction/contact-us>

For any general questions regarding service availability or more information, residents can call their main customer service line at 1-833-926-8456 or use the website: www.glofiber.com

Updates from Department of Water Works

If your home or business was built before 1973, be on the lookout for a lead service line survey from the Department of Water Works. The City is working to develop a lead service line inventory map to comply with the EPA's Lead and Copper Rule and to better protect our community. For more information on the EPA's Lead and Copper Rule, the development of a lead service line inventory map, and to take the survey, please scan the QR code or visit our website at
