Salisbury OpenGov Deployment

HOW TO NAVIGATE THE NEW SYSTEM AS A LANDLORD

About OpenGov

OpenGov was founded in 2012 by Zac Bookman, Joe Lonsdale, and technologists from Stanford University, who studied government budgeting in the aftermath of the Great Recession. They observed dedicated public servants struggle against outdated technology that prevented them from accessing timely spending information and communicating their priorities to residents and elected officials. Believing there was a better way, they built modern cloud software designed exclusively for governments.

Over 1,900 public agencies nationwide form a growing network leveraging OpenGov to operate more efficiently, adapt to change, and strengthen public trust.

Once payment is made, you will receive an additional receipt detailing your registered rental unit.

On January 15, you will receive notice to renew, and it will take you through the information you have already entered to verify.

Current MDE Lead Certificates must be uploaded to each qualifying rental annually.

Conclusion

During this initial deployment, we will have an internal process to waive any fees, and a new Rental Owner's License will be issued. However, your current license is still valid until March 1, 2025. Any new rental units will have to go through the standard inspection process, which will be processed in OpenGov. Each business entity must register for its own Rental Owner's License, and any properties that it owns must be registered under that License.

Payments can be made online in OpenGov, or checks can be mailed to our office, 207 W. Main St, Suite 102, Salisbury, MD 21801.
