Mayor Barrie Parsons Tilghman
City of Salisbury
North Division Street
Salisbury, Maryland 21801

Dear Mayor Tilghman;

I understand there is an opening on the Port of Salisbury Marina Commission. I would be very honored to fill that position. I was on the Marina Commission in the late 1980s and then had to resign due to having to move to Smithfield, Virginia as my husband, Paul, had a job transfer.

As a native of Salisbury, I have always had an interest in the growth and progress of the City of Salisbury. The Marina is a vital part of the City, often the first impression that some people have of Salisbury.

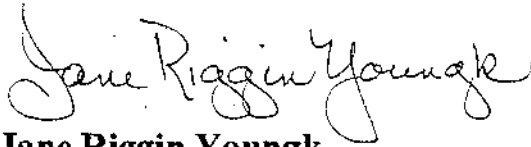

We have had a boat in the Marina for many years, and presently have a 43 ft. sailboat, "Mamie," berthed there. We have had the enjoyment and opportunity of meeting many interesting folks who travel the 18 miles up the Wicomico River from many faraway locations. They come here to spend their money at Salisbury's many business establishments.

My family has had a history of public service to the area, going back to the Great Fire of Salisbury in the year 1886, when my Great Grandfather Fred A. Grier, Sr. came here to fight the fire and ended up moving here and raised his family here. His son, Fred A. Grier Jr., became the Fire Chief and Fire Marshall in Salisbury. He also served on the City Council. He had many positions of appointment that he served for the City of Salisbury.

I have always been interested in the future of Salisbury. I feel that I am qualified for the position on the Marina Commission in part because of my many years of boating experience. If the Marina is privatized, I

**think more than ever that the Marina needs to have its operations
overseen.**

**Thank-You for Your consideration,
Respectfully and Sincerely Yours,**

Re: Marina Committee

Dear Mayor and Council:

My current term as a member of the Marina Committee expires this month. I am writing to express my continued interest in being a member of the Marina Committee.

My desire to remain on Salisbury's Marina Committee is based on my personal interest in the community. In the time spent working with other members of the Committee, I feel that I have been able to provide my professional opinion to assist the group in their decision-making processes. It was a pleasure representing the Committee at the Marina's summer picnic in July.

I have enjoyed being a part of the Marina Committee over the past two years and am looking forward to serving the community in the coming years. I have enclosed my resume for your review.

Sincerely,

J. Stacey Hart, P.E.

J. Stacey Hart, P.E.

PROFESSIONAL SUMMARY

Ms. Hart has over 10 years of experience in site design and civil engineering. Major areas of responsibility have included the design and management of engineering projects on the Eastern Shore. She is the former manager of a large multi-disciplined firm's Salisbury Engineering Department, where she managed many commercial projects. Design responsibilities have included all aspects of site development, including stormwater management, grading, sediment control, utilities, including lift station design and analysis, drainage, roads and parking lots.

SPECIAL PROJECT EXPERIENCE

- **Goose Creek Subdivision, Salisbury, MD** – designed the drainage and stormwater management of this 12 lot subdivision in Wicomico County.
- **Nottingham Woods Dam Improvements, Salisbury, MD** – performed the surveying and design for the improvements to an existing inadequate stormwater structure for Wicomico County Department of Public Works.
- **New and Living Way Apostolic Church, Sharptown, MD** – site design, including stormwater management, grading, and sediment control for a new 5500 square foot church with proposed 5500 square foot addition.
- **Airport Self Storage, Salisbury, MD** – site design for proposed mini storage facility located on Mt. Hermon Road. State Highway entrance included hydraulic analysis.
- **PRMC Outpatient Facility, Salisbury, MD** – Project Engineer for site design of new facility on Business Route. Site design included stormwater, grading, sediment and utilities. Project required coordination with City of Salisbury and State Highway. (work performed while employed with another firm)
- **Wor-Wic Community College, Salisbury, MD** – Project Engineer on many phases, including the Allied Health and Science and Criminal Justice Buildings. Design of the site as well as parking lots, 68,000 gallon water storage tank, new service road and analysis of the proposed sanitary sewer and water connections with the City of Salisbury. (work performed while employed with other firms)
- **UMES Dorm Facility, Princess Anne, MD** – Project Engineer for site design of new dorm facility on the UMES campus. Design included stormwater and sediment control which had to be reviewed and permitted through the Maryland Department of the Environment (MDE). (work performed while employed with another firm)

Subject: Search for a Marina Commission Member

Gentlemen:

I recently retired from eighteen years in the Internal Revenue Service. Prior to that, I developed a marina and boat dealership in the Pittsburgh, PA. area. I built buildings, launching facilities, docks, etc., and developed the business into one of the best in Western Pennsylvania, receiving many dealership awards for excellence in management and customer service. I offered dockage, gasoline, boating parts and accessories, and marine sales and repair services. I belonged to the national and local branches of the Marine Retailers Association of America, served on the board of the Pittsburgh Tri Rivers Marine Trade Association for fifteen years, and for one year, managed the Pittsburgh Boat Show for this association. I also served on dealer advisory boards for major suppliers including Brunswick and Chrysler Corporations.

My education includes a Bachelor of Science in Finance and a Master of Public Management. Additionally, I have sixteen credits in real and personal property appraisal, twelve credits in property and casualty insurance, and twelve PhD. credits in budgeting, economics and finance.

I currently keep abreast of the developments in the marine and marina industries, and receive the Marina Association and Boat & Motor Dealer publications. It would be an honor and a pleasure to serve on the Salisbury Marina Commission. I know I could contribute to the success and further development of the marina facilities in Salisbury.

I look forward to meeting with you to discuss this opportunity. I may be reached at the above address or telephone number.

Sincerely yours,

Karl W. Glover
