

RESOLUTION NO. 1762

A RESOLUTION OF THE COUNCIL OF THE CITY OF SALISBURY, MARYLAND AUTHORIZING TEMPORARY TRAVEL-LANE SHIFTS AND CLOSURES ON COLLEGE AVENUE FOR PUBLIC SAFETY AND CONVENIENCE.

WHEREAS, the City Council adopted rules for temporary travel-lane shifts and closures for the City's streets and highways to ensure public safety and convenience with Resolution 1023; and

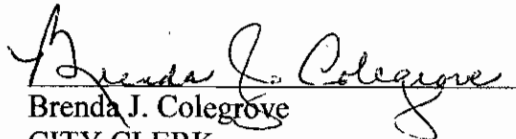

WHEREAS, the Wicomico County Board of Education is installing islands, traffic lights, stormwater inlets and widening the road in the public rights of way of College Avenue which will require temporary vehicular travel lane shifts and closures of approximately 59 days in duration; and

WHEREAS, the City Council rules established in accordance with Resolution 1023 require a City Council resolution authorizing temporary travel-lane shifts and closures in excess of 30 days for City roadways.

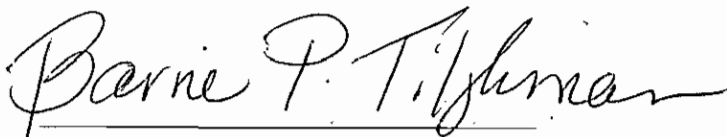

NOW, THEREFORE, BE IT RESOLVED that the Salisbury City Council approves the temporary travel-lane shifts and closures on College Avenue for a period not to exceed 59 calendar days in accordance with a traffic control plan submitted by the Becker Morgan Group representing Wicomico County Board of Education and approved by the Department of Public Works in accordance with the standards of the Manual of Uniform Traffic Control Devices (MUTCD).

THE ABOVE RESOLUTION was introduced and duly passed at a meeting of the Council of the City of Salisbury, Maryland held on the 23rd day of March, 2009 and is to become effective immediately upon adoption.

ATTEST:

Brenda J. Colegrove
CITY CLERK

Louise Smith
PRESIDENT, City Council

Barrie P. Tilghman
MAYOR, City of Salisbury

**A Team of Teams

February 25, 2009

Memorandum To: John Pick, City Administrator through Jim Caldwell, P.E.
Director, Salisbury Public Works

JS Caldwell

Purpose: To provide information to the Mayor's Office and City Council on a proposed Traffic Control Plan for the James M. Bennett High School project.

Discussion:

- The Becker Morgan Group on behalf of the Wicomico County Board of Education has submitted a proposed Traffic Control Plan for the James M. Bennett High School Project for approval.
- This Traffic Control Plan approval request is inclusive of Phases 3-7.
- Phases 1 and 2 were previously approved by the Mayor's Office via a separate Traffic Control Plan due to the duration being less than 30 days and the originally proposed phases (1-2 and 3-7) having approximately 2 years separation.
- The request from Becker Morgan Group is attached along with Drawings EX-1, EX-2, and a revised proposed phasing plan for clarification and information purposes.
- The proposed work would be performed in phases with lane shifts, lane closures, flagging operations and barricades as to not require a total closure of College Avenue.
- The work in question is scheduled to be performed during the summer months (starting June 11, 2009); therefore minimizing disruption to Wicomico County Schools and Salisbury University traffic flows.
- The total duration of the request is 59 calendar days and will therefore require City Council approval in accordance with City Council Resolution # 1023 dated October 27, 2003
- I have reviewed the aforementioned pages of the Traffic Control Plan as well as the letter from Becker Morgan Group and recommend their proposal be approved as requested.
- Unless you or the Mayor, have further questions, please forward this memorandum to the City Council. For additional questions you may have, I can be reached at 410-548-3170 or by e-mail at fennis@ci.salisbury.md.us

Re: **Traffic Control Plan**
JAMES M. BENNETT HIGH SCHOOL
Salisbury, Maryland
2006037.00
Site Plan Number: 06-049

Dear Frank:

On behalf of our client, the Wicomico County Board of Education, Becker Morgan Group requests the approval of the enclosed Traffic Control Plans.

As we have discussed, the Construction Manager, Whiting-Turner Contracting Company, has adjusted the schedule to perform the College Avenue work this summer rather than in 2010 as previous designed. The enclosed plans reflect the comments you and Frank Ennis provided during our meeting on Friday, February 13, 2009.

The Traffic Control plans consist of proposed sheets C-715 through C-721. All work shown on Sheet C-715, Phase 2, has been previously approved.

We understand the duration of the remaining TCP, phases 3-7, requires approval by the City Council and that your department will be initiating the process to obtain this approval. Work within the College Avenue right-of-way is scheduled to begin June 11, 2009 after schools are dismissed for summer break. Work will be ongoing throughout the summer, with construction estimated to be completed in August of this year.

Also enclosed are the presentation materials for distribution to the City Council. These color plans depict the traffic control measures proposed for work within College Avenue and the general detour plan. We request to be included on the agenda for the March 9th meeting.
