Re: Request for Residential Parking District

Chapter 10.28 of the City of Salisbury Code allows the City Council to designate parking on streets in a particular area to be restricted by permit. The Council may prohibit non-permit parking in such areas and that street would be posted as a permit area. Residents of that street would be required to fill out an application to receive the appropriate permits. Permits are renewed each year, effective July 1st. Permits are street specific, there is no charge for the permits and there is a limit of one permit per licensed driver or per registered vehicle.

Attached please find a resolution requesting the extension of the residential parking district to the south side of Washington Street, from Roger Street to Spring Avenue. There are eighteen houses on this block of Washington Street and a majority of homeowners have signed the petition requesting the residential parking district (copy of petition attached). They have asked for residential permit parking Monday through Friday, from 7:00 a.m.-7:00 p.m.

Per review of the petition and discussion with some of the residents, parking is difficult at times on this street due to the amount of traffic that uses the entire street for parking related to the commercial uses across the street.

To whom it may concern:

The residents listed on the attached petition request "*Permit Only Parking*" on the south side of Washington Street, from Roger Street to Spring Avenue. We ask that the permit parking requirement be limited to weekdays during the hours of 7:00 am until 7:00 pm.

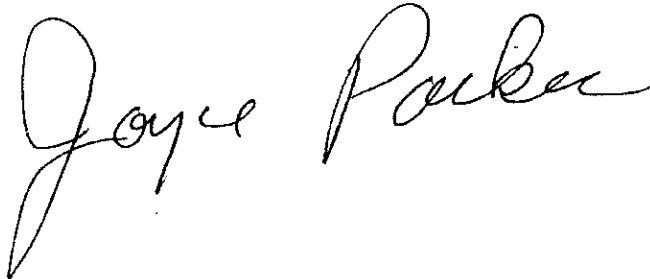

The rationale for this request is based on the amount of traffic generated by the commercial uses located across the street from our homes. These uses frequently leave patrons using the residential side of the street for easy access to conduct their business.

Thank you in advance for your cooperation.

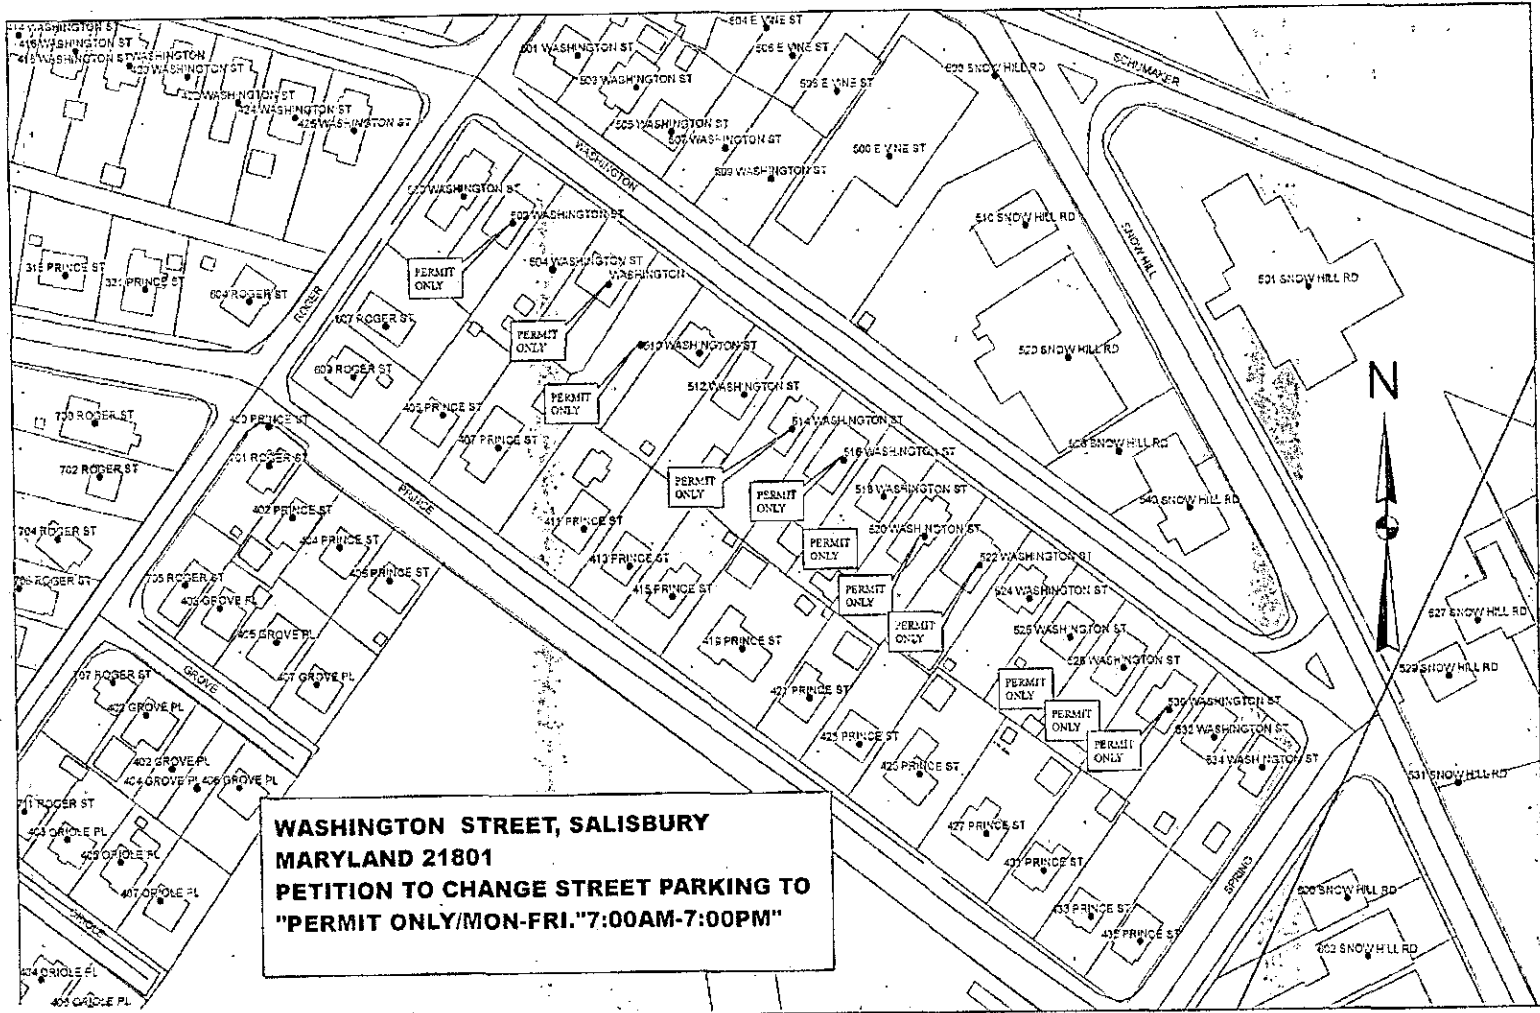

Respectfully:
