Re: Request for Residential Parking District

Chapter 10.28 of the City of Salisbury Code allows the City Council to designate parking on streets in a particular area to be restricted by permit. The Council may prohibit non-permit parking in such areas and that street would be posted as a permit area. Residents of that street would be required to fill out an application to receive the appropriate permits. Permits are renewed each year, effective July 1st. Permits are street specific, there is no charge for the permits and there is a limit of one permit per licensed driver or per registered vehicle.

Attached please find a resolution requesting the extension of the residential parking district to the 200 block of Powell Avenue. There are nine houses on this block of Powell Avenue and a majority of homeowners have signed the petition requesting the residential parking district (copy of petition attached). They have asked for residential permit parking on the South side of the street, seven days a week, 24 hours a day.

Due to the width of the street, the Salisbury Police Department has recommended granting residential permit parking on one side of the street, with no parking allowed on the other side of the street, to allow for emergency vehicle access. Per review of the petition and discussion with some of the residents, parking is difficult at times on this street due to the number of college students that use the street for parking.

Dear Mrs. Reddersen:

The resident neighbors of the 200 block of Powell Ave. between Hanover St. and Smith St. have suffered an influx of college students parking on both sides of the street during the day and all night. This has been going on for a long time.

Cynthia Place rents apartments to students but there is not enough parking to accommodate all of the students and their friends. So they "spill-over" onto Powell Ave. as do the "spill-overs" from Hanover St.

Other students use our street for the day-only-parking since it is so convenient to the University. Nevertheless, our residents still can't park in front of own homes; we have difficulties getting in and out of our driveways; the city street sweepers can't even come down the street to clean out our gutters of the many sycamore leaves that end up stopping up the gutters, which is a hinderance in the flooding we experience on this street. There are also garbage day issues with both sides of the street being congested, etc., etc.

Powell Ave. is a narrow street. Parked cars on both sides present a safety issue should there be an emergency.

We would like to request RESIDENTIAL PERMIT PARKING ONLY on the south side of Powell Ave. to be effective 24 hours per day, seven days per week. In looking at the 300 block of Powell Ave., we assume the other side of Powell Ave. (200 block) would have signs that read NO PARKING ANY TIME.

Attached is signed Petition for this much needed request. Thank you for your consideration.

Very Truly Yours,

Salisbury City Residents
200 Block of Powell Avenue
