John Pick, City Administrator  
City of Salisbury

Dear Mr. Pick:

The Zoo Commission has secured a donation to pay for the materials and labor to re-model the Education Animal Holding Building that sustained damage due to a leaky roof. We will be replacing shingles, roof deck, sheetrock, insulation and flooring.

The total value of this donation is approximately \$7,000. The repairs will allow this building to be functional once again for housing the animals used throughout our educational programs. In accordance with the AZA recommendations, the educational animals that routinely leave zoo grounds should be maintained separately from the display collection to reduce potential cross-contamination.

This building is an integral part of the educational programs and helps to ensure continued accreditation through the AZA.

It is the wish of the Zoo Commission that the City accepts this grant and donation to help keep the City's cost down and complete this repair project in a timely manner.
