Re: Comcast Rate Filing

The City of Salisbury received from Comcast Cable-Easton Division, Forms 1240 and 1205 which calculate the maximum permitted rate for Limited Basic Service and maximum permitted rates for equipment and installation of service, based on FCC regulations. The Department of Internal Services staff has discussed these documents with Joseph Lance, Senior Director Regulatory/Compliance, and is satisfied that the calculations of the regulated rates are reasonable and consistent with FCC regulations.

As calculated in Form 1240, the Maximum Permitted Rate for Limited Basic Service for this term period is calculated at \$15.42. This is a decrease of \$1.41 from the prior year maximum permitted rate of \$16.83. It should be noted that the current rate for Limited Basic Service is \$16.50 and Comcast have indicated they intend to decrease the rate for Limited Basic Service to \$15.40.

As calculated in Form 1205, the attached 2010 Installation and Equipment Rates have been established for the current term period. The noted rate increases and decreases identified in the Operator Selected Rate column will go into effect November 1, 2010.

If you have any questions, please let me know. Thank you.
